RE: Submission of Revisions to the Coastal Zone Permit Application for Grantham Lane Associates, LLC. for a Proposed Aggregate Crusher Operation Located at 761 Grantham Lane, New Castle, DE 19720

Dear Mr. Coyle:

Compliance Plus Services, Inc. ("CPS"), on behalf of its client, Grantham Lane Associates, LLC ("Grantham Lane") is submitting the enclosed revisions to the Coastal Zone Application and Environmental Offset Plan to replace the documents previously filed with the Department on August 28, 2008, January 28, 2009 and February 11, 2009.

As you are aware, the original application submission included a diesel powered aggregate crusher for the project. Subsequently, Grantham Lane Associates, LLC, revised its application based on the belief that an electrical powered unit would be sufficient to reduce the aggregates to a size suitable for re-use. However, after additional discussions with the local power utility, Grantham Lane has determined that the electrical powered crusher is no longer feasible. Grantham Lane is now seeking to amend the application to again reflect the use of a diesel powered aggregate crushing unit similar to the initial unit proposed.

To offset the emissions from the diesel powered unit, Grantham Lane Associates, LLC proposes to obtain emissions credits from the Delaware Economic Development Office (DEDO) to supplement the current environmental offset plan.

We are enclosing the revised pages to the Coastal Zone Permit application, the Environmental Offset Plan and the Environmental Offset Plan matrix which reflect the changes discussed above.

Should you have any questions or require any additional information related to this matter, please do not hesitate to contact me at 215.734.1414 or via electronic mail at mlogan@cps-2comply.com.

Sincerely,

Michael D. Logan
Vice President, Environmental Services
