Subject: Congo Public Hearing
Date: Tuesday, July 28, 2020 8:52:30 PM

As a resident in the immediate area of the proposed site, I'm apposed to allowing a crematory to be placed in my neighborhood.

The city of Wilmington already has environmental issues along with surrounding states and adding allowing a crematory to Be placed in our neighborhood isn't aiding in providing a clean environment.

I'm appalled Congo had the audacity to request to have a crematory added to our community.

I'm sure the can partner with an existing crematory, find a less populated area or place it within their own neighborhood.

Just think about someone looking to sell their home, only for the proposed buyer to learn there's an active crematory within walking distance of their potential home; not a good selling feature.

For those reasons stated and more, I vote NOT to allow their permit to be approved.

Sincerely,

Mrs. Barbara Howard-Jeffers
