Comments:

Hello, I logged on Aug 4th, and listen, we don't want a crematory in our community, day care right across from this bldg., I have grandkids and I don't want them or myself expose, I live one block down from that location. For his slide show, Congo's he has never done anything for our Community, he's doing all that at the location at 24th and Market St. so take it there, I've lived in my home for 60 years. Take that crematory some place else, not in our community. Why do we need two in our community the other one is what two or three block away. Beside that there's another Day Care all most right next door, and people live in apartments next to that bldg. also. No one wants to smell that or be expose.
