LEGAL NOTICE
Notice of Public Hearing

The Department of Natural Resources and Environmental Control (DNREC), Division of Waste and Hazardous Substances will conduct a public hearing (Docket #2020-R-WH-0008) on the Proposed Plan of Remedial Action for the General Motors Corp. Wilmington Assembly Plant Operable Unit 4 (DE-1149). The assembly plant is located in Wilmington, Delaware.

Soil at Operable Unit 4 (OU-4) was not impacted. OU-4 groundwater was impacted by ethylbenzene, 1,2,4-trimethylbenzene, xylene, and naphthalene. Groundwater contamination migrated offsite to the northeast. As the groundwater travels from the site, contamination reduces and does not impact any offsite drinking water wells. Indoor air samples from Townhouses on Dodson Avenue do not indicate a risk from groundwater to indoor air. The contamination at OU-4 will be addressed by groundwater monitoring, restricting OU-4 to commercial use, limiting groundwater use, and requiring soil/groundwater management plan during redevelopment.

Details of the Proposed Plan are available at the office of DNREC-RS (391 Lukens Drive, New Castle, DE, 19720), or online at <http://www.nav.dnrec.delaware.gov/DEN3/>.

The public hearing will be held on **Thursday, April 9, 2020, beginning at 6:00 p.m. at the DNREC Remediation Section Offices at 391 Lukens Drive, New Castle, DE 19720.**

For additional information on the Proposed Plan visit <https://de.gov/dnrec/ hearings> or contact Rick Galloway, Project Manager, at 391 Lukens Drive, New Castle, DE, 19720, by telephone at (302) 395-2600, or by email at RS_Public_Comments@delaware.gov.

Persons wishing to comment on the Proposed Plan may do so either orally or in written form at the public hearing on April 9, 2020. In lieu of attending the public hearing, written comment may be submitted to the Hearing Officer via the online comment form at <https://dnrec.alpha.delaware.gov/public-hearings/comment-form/>, via email to DNRECHearingComments@delaware.gov, or via USPS to the below address.
