Comments:

Agree with the plastic bag ban. I have been using reusable bags for shopping, for nearly 3 years now. I have a bag in the back seat of my car that has about 12 in there. I carry several inside the store with me to use. I fold them up and reuse them next trip to the store. It is just a matter of getting people used to using a reusable bag. We need to focus on what is best for Delaware, the US and the world, rather than what is easier and more convenient for us at the moment. Thank you
