

Dear Governor Carney and DNREC officials,

*A MOST IMPORTANT ISSUE!!!!*

Thank you for proposing common-sense limits to climate pollution from power plants. I support finalizing these protections as proposed, and urge Delaware to invest more revenue into communities that are overburdened by pollution and underserved by our current energy and economic system.

Extensive independent analysis clearly shows that the improved limits will save Delaware families and businesses money, create jobs, and support a growing economy, as RGGI has throughout its successful history. Now is the time to build on that success, and deliver even more benefits to our great state.

Sincerely,

Nancy Fifer  
16077 Willow Creek Rd  
Lewes, DE 19958

Dear Governor Carney and DNREC officials,

*As a new resident of DE, who has been away from the mid-Atlantic area for 18 years, I have noticed a significant deterioration in air quality. I fully support clean energy and RGGI!*

Thank you for proposing common-sense limits to climate pollution from power plants. I support finalizing these protections as proposed, and urge Delaware to invest more revenue into communities that are overburdened by pollution and underserved by our current energy and economic system.

Extensive independent analysis clearly shows that the improved limits will save Delaware families and businesses money, create jobs, and support a growing economy, as RGGI has throughout its successful history. Now is the time to build on that success, and deliver even more benefits to our great state.

Sincerely,

Marva Dansberry  
89 Pasatiempo Court, PO Box 88  
Magnolia, DE 19962

Dear Governor Carney and DNREC officials,

*Clean energy is the future for Delaware and the country, and I strongly support efforts to reduce dependence on fossil fuels. Delaware is a beautiful state with a coastline we all value. Please protect our fragile environment.*

Thank you for proposing common-sense limits to climate pollution from power plants. I support finalizing these protections as proposed, and urge Delaware to invest more revenue into communities that are overburdened by pollution and underserved by our current energy and economic system.

Extensive independent analysis clearly shows that the improved limits will save Delaware families and businesses money, create jobs, and support a growing economy, as RGGI has throughout its successful history. Now is the time to build on that success, and deliver even more benefits to our great state.

Sincerely,

Anita Manning  
801 Seville Ave.  
Anita, DE 19809

Dear Governor Carney and DNREC officials,

*DE should be leading the charge!*

Thank you for proposing common-sense limits to climate pollution from power plants. I support finalizing these protections as proposed, and urge Delaware to invest more revenue into communities that are overburdened by pollution and underserved by our current energy and economic system.

Extensive independent analysis clearly shows that the improved limits will save Delaware families and businesses money, create jobs, and support a growing economy, as RGGI has throughout its successful history. Now is the time to build on that success, and deliver even more benefits to our great state.

Sincerely,

Maggie Kettlewood  
338 CAMERTON LANE  
Townsend, DE 19734

Dear Governor Carney and DNREC officials,

*Decisions we make take have such ripple effect that we need to protect and preserve our planet now.... not later.*

Thank you for proposing common-sense limits to climate pollution from power plants. I support finalizing these protections as proposed, and urge Delaware to invest more revenue into communities that are overburdened by pollution and underserved by our current energy and economic system.

Extensive independent analysis clearly shows that the improved limits will save Delaware families and businesses money, create jobs, and support a growing economy, as RGGI has throughout its successful history. Now is the time to build on that success, and deliver even more benefits to our great state.

Sincerely,

Gemma Lowery  
107 Rushmore Ct  
Bear, DE 29701

Dear Governor Carney and DNREC officials,

*Delaware has done a poor job switching to low carbon fuels and we need to do more. I support RGGI and I'd like to see the caps drop faster. GIVE IT TEETH!*

Thank you for proposing common-sense limits to climate pollution from power plants. I support finalizing these protections as proposed, and urge Delaware to invest more revenue into communities that are overburdened by pollution and underserved by our current energy and economic system.

Extensive independent analysis clearly shows that the improved limits will save Delaware families and businesses money, create jobs, and support a growing economy, as RGGI has throughout its successful history. Now is the time to build on that success, and deliver even more benefits to our great state.

Sincerely,

Will Trout

1624 Laurel St

Wilmington, DE 19806

Dear Governor Carney and DNREC officials,

*Delaware has made significant progress in matters concerning cleaner air from power plants. The problem remains, however, that most of Delaware's air pollution comes from states west of us that continue burning coal and other fossil fuels with limited pollution controls . We must act together in order to clean up the air in all of the "United States"!*

Thank you for proposing common-sense limits to climate pollution from power plants. I support finalizing these protections as proposed, and urge Delaware to invest more revenue into communities that are overburdened by pollution and underserved by our current energy and economic system.

Extensive independent analysis clearly shows that the improved limits will save Delaware families and businesses money, create jobs, and support a growing economy, as RGGI has throughout its successful history. Now is the time to build on that success, and deliver even more benefits to our great state.

Sincerely,

Gregg Mccauley  
538 Upper Pike Creek Rd  
Newark, DE 19711

Dear Governor Carney and DNREC officials,

*Even though there is no federal leadership currently to address climate change, there is still an opportunity for states to step up and lead. This is crucial for states, like Delaware, that are low-lying coastal areas that will feel the greatest effects of sea-level rise associated with climate change.*

*Thank you for your leadership on this important issue.*

Thank you for proposing common-sense limits to climate pollution from power plants. I support finalizing these protections as proposed, and urge Delaware to invest more revenue into communities that are overburdened by pollution and underserved by our current energy and economic system.

Extensive independent analysis clearly shows that the improved limits will save Delaware families and businesses money, create jobs, and support a growing economy, as RGGI has throughout its successful history. Now is the time to build on that success, and deliver even more benefits to our great state.

Sincerely,

Mark Zolandz  
2705 S Riding Dr  
Wilmington, DE 19808

Dear Governor Carney and DNREC officials,

*How can we honestly take a step backward & use more coal causing more air pollution? Does Trump have fond memories of the age of the dinosaurs?? As our elected politician, PLEASE stress the importance of clean air & water with less pollution to the Trump administration! These forces of life are what keep us alive & healthy, but they need protected by the public & representatives like yourselves. Please HELP by doing what we elected you to do.*

Thank you for proposing common-sense limits to climate pollution from power plants. I support finalizing these protections as proposed, and urge Delaware to invest more revenue into communities that are overburdened by pollution and underserved by our current energy and economic system.

Extensive independent analysis clearly shows that the improved limits will save Delaware families and businesses money, create jobs, and support a growing economy, as RGGI has throughout its successful history. Now is the time to build on that success, and deliver even more benefits to our great state.

Sincerely,

Becky Gutshall  
36548 Coneflower Cir  
Selbyville, DE 19975

Dear Governor Carney and DNREC officials,

*I am concerned about the Indian Point power plant in Dagsboro, and the coal ash dumps there. In North Carolina, recently, we hear of their coal ash dumps being overrun by water, creating poisonous mercury and other heavy metals escaping into their water, the Cape Fear River. If we in DE get a big storm, the same might happen to us. That is one reason why we need to be going FULL STEAM AHEAD ON CLEAN RENEWABLE ENERGY !!*

Thank you for proposing common-sense limits to climate pollution from power plants. I support finalizing these protections as proposed, and urge Delaware to invest more revenue into communities that are overburdened by pollution and underserved by our current energy and economic system.

Extensive independent analysis clearly shows that the improved limits will save Delaware families and businesses money, create jobs, and support a growing economy, as RGGI has throughout its successful history. Now is the time to build on that success, and deliver even more benefits to our great state.

Sincerely,

Charlie Garlow  
82 Sussex St  
Rehoboth Beach, DE 19971

Dear Governor Carney and DNREC officials,

*I am firmly in favor of expanding these protections*

Thank you for proposing common-sense limits to climate pollution from power plants. I support finalizing these protections as proposed, and urge Delaware to invest more revenue into communities that are overburdened by pollution and underserved by our current energy and economic system.

Extensive independent analysis clearly shows that the improved limits will save Delaware families and businesses money, create jobs, and support a growing economy, as RGGI has throughout its successful history. Now is the time to build on that success, and deliver even more benefits to our great state.

Sincerely,

Jack Ray  
219 W Edgewater Way  
Newark, DE 19702

Dear Governor Carney and DNREC officials,

*I feel that, with the abdication of responsibility by the current federal government, it is especially critical for the states to take a leadership role in encouraging more renewable energy use, both to mitigate the effects of climate change and to improve the health of our citizens. Governor Carney, you said the right things around climate and energy issues as you campaigned for governor, please now take the actions that give these words true meaning.*

Thank you for proposing common-sense limits to climate pollution from power plants. I support finalizing these protections as proposed, and urge Delaware to invest more revenue into communities that are overburdened by pollution and underserved by our current energy and economic system.

Extensive independent analysis clearly shows that the improved limits will save Delaware families and businesses money, create jobs, and support a growing economy, as RGGI has throughout its successful history. Now is the time to build on that success, and deliver even more benefits to our great state.

Sincerely,

Susan Mack  
2309 Macdonough Rd  
Wilmington, DE 19805

Dear Governor Carney and DNREC officials,

*I have lived in Delaware for most of my life, and our beautiful state deserves to continue to improve the lives of the people who live there through funding anti-pollution initiatives. (Especially lower-income) Delaware communities are very at-risk for developing health issues, etc. from pollution. IT IS IN THE BEST INTEREST OF THE STATE TO PROTECT THE PEOPLE WHO LIVE HERE, NOT THE POLLUTING CORPORATIONS WHO WANT TO PROFIT FROM HARM CAUSED TO THE PEOPLE WHO LIVE HERE.*

Thank you for proposing common-sense limits to climate pollution from power plants. I support finalizing these protections as proposed, and urge Delaware to invest more revenue into communities that are overburdened by pollution and underserved by our current energy and economic system.

Extensive independent analysis clearly shows that the improved limits will save Delaware families and businesses money, create jobs, and support a growing economy, as RGGI has throughout its successful history. Now is the time to build on that success, and deliver even more benefits to our great state.

Sincerely,

Sarah Gooderham  
1217 Shallcross Ave  
Wilmington, DE 19806

Dear Governor Carney and DNREC officials,

*I spent much of my free time outside in Delaware running, biking, swimming and kayaking. I strongly support any initiative that will improve the safety and quality of my outdoor experiences. Thank you for supporting this project.*

Thank you for proposing common-sense limits to climate pollution from power plants. I support finalizing these protections as proposed, and urge Delaware to invest more revenue into communities that are overburdened by pollution and underserved by our current energy and economic system.

Extensive independent analysis clearly shows that the improved limits will save Delaware families and businesses money, create jobs, and support a growing economy, as RGGI has throughout its successful history. Now is the time to build on that success, and deliver even more benefits to our great state.

Sincerely,

David Mcmann  
2406 Lori Ln S  
Wilmington, DE 19810

Dear Governor Carney and DNREC officials,

*Investment in clean energy technologies and education to build and manage them is a win-win for Delaware citizens and the environment.*

*The changing weather patterns associated with the Earth's warming including sea level rise, prolonged rain periods and more rapid intensification of tropical storms into hurricanes has the potential for greater damage to Delaware's long shoreline and low lying land mass. Damage from these changes means more public money will go to clean up and restoration. Tourism which is a major driver of jobs and economy in Sussex County (and therefore the State) are at real and significant risk if we do not continue and enhance statewide efforts at reducing/ mitigating both CO2 and methane release from fossil fuel use.*

*Thank you for the opportunity to have my voice heard. Thank you for working toward stronger climate protection measures.*

Thank you for proposing common-sense limits to climate pollution from power plants. I support finalizing these protections as proposed, and urge Delaware to invest more revenue into communities that are overburdened by pollution and underserved by our current energy and economic system.

Extensive independent analysis clearly shows that the improved limits will save Delaware families and businesses money, create jobs, and support a growing economy, as RGGI has throughout its successful history. Now is the time to build on that success, and deliver even more benefits to our great state.

Sincerely,

Patricia Frey  
30424 Marina Rd  
Dagsboro, DE 19939

Dear Governor Carney and DNREC officials,

*lets do this before the damage is irreversable*

Thank you for proposing common-sense limits to climate pollution from power plants. I support finalizing these protections as proposed, and urge Delaware to invest more revenue into communities that are overburdened by pollution and underserved by our current energy and economic system.

Extensive independent analysis clearly shows that the improved limits will save Delaware families and businesses money, create jobs, and support a growing economy, as RGGI has throughout its successful history. Now is the time to build on that success, and deliver even more benefits to our great state.

Sincerely,

Camille Kirk  
1201 Pecksniff Rd  
Wilmington, DE 19808

Dear Governor Carney and DNREC officials,

*Long term disciplined preservation or conservation of our air, water, and land will do more for Delaware and the surrounding areas than adding industry that fight sensible regulation.*

Thank you for proposing common-sense limits to climate pollution from power plants. I support finalizing these protections as proposed, and urge Delaware to invest more revenue into communities that are overburdened by pollution and underserved by our current energy and economic system.

Extensive independent analysis clearly shows that the improved limits will save Delaware families and businesses money, create jobs, and support a growing economy, as RGGI has throughout its successful history. Now is the time to build on that success, and deliver even more benefits to our great state.

Sincerely,

Ellen Freed  
702 Bengel Rd  
Hockessin, DE 19707

Dear Governor Carney and DNREC officials,

*My church is now 98% energy neutral. We support the Delaware Interfaith Power & Light member congregations' efforts that have been making strides in Wilmington. We Delawareans are working to reduce pollution.*

Thank you for proposing common-sense limits to climate pollution from power plants. I support finalizing these protections as proposed, and urge Delaware to invest more revenue into communities that are overburdened by pollution and underserved by our current energy and economic system.

Extensive independent analysis clearly shows that the improved limits will save Delaware families and businesses money, create jobs, and support a growing economy, as RGGI has throughout its successful history. Now is the time to build on that success, and deliver even more benefits to our great state.

Sincerely,

Patricia Williams  
9 Enfield Ln  
Lewes, DE 19958

Dear Governor Carney and DNREC officials,

*Please address the massive pollution generated by the Delaware City Refinery, one of our state's worst polluters. The jobs it provides pale in comparison with the damage done to our health and environment. Please ensure DNREC stops giving the refinery preferential treatment, and imposes significant fines for its regular discharges.*

Thank you for proposing common-sense limits to climate pollution from power plants. I support finalizing these protections as proposed, and urge Delaware to invest more revenue into communities that are overburdened by pollution and underserved by our current energy and economic system.

Extensive independent analysis clearly shows that the improved limits will save Delaware families and businesses money, create jobs, and support a growing economy, as RGGI has throughout its successful history. Now is the time to build on that success, and deliver even more benefits to our great state.

Sincerely,

Raymond Majewski  
404 Wooddale Ave  
New Castle, DE 19720

Dear Governor Carney and DNREC officials,

*Please finalize common-sense and life-saving climate protections and invest in communities overburdened by pollution!*

Thank you for proposing common-sense limits to climate pollution from power plants. I support finalizing these protections as proposed, and urge Delaware to invest more revenue into communities that are overburdened by pollution and underserved by our current energy and economic system.

Extensive independent analysis clearly shows that the improved limits will save Delaware families and businesses money, create jobs, and support a growing economy, as RGGI has throughout its successful history. Now is the time to build on that success, and deliver even more benefits to our great state.

Sincerely,

Valerie Faden  
24 Beach Plum Drive  
Millville, DE 19967

Dear Governor Carney and DNREC officials,

*Please make a difference in saving the lives of Delawarians. Our state is second in cases of Cancer. Be bold! Take the next right step in common-sense bipartisan , regional limits to creating clean air policies, one step at time.*

*We need to do our part in the RGGI. Go for it. Enough is enough of pollution.*

*Elizabeth J. Grove*

Thank you for proposing common-sense limits to climate pollution from power plants. I support finalizing these protections as proposed, and urge Delaware to invest more revenue into communities that are overburdened by pollution and underserved by our current energy and economic system.

Extensive independent analysis clearly shows that the improved limits will save Delaware families and businesses money, create jobs, and support a growing economy, as RGGI has throughout its successful history. Now is the time to build on that success, and deliver even more benefits to our great state.

Sincerely,

Elizabeth Grove  
106 Seagull Dr  
Lewes, DE 19958

Dear Governor Carney and DNREC officials,

*Since the Trump administration won't support clean energy, it is all the more important for states to gather together and do all that we can.*

*Clean energy is not only good for the economy, it is good for the health of many, myself included, who have asthma or other respiratory issues.*

*Please move forward with this agreement, for the good of all of the people. A few corporations oppose this solely for selfish reasons. Please do what is best for the people of Delaware!*

Thank you for proposing common-sense limits to climate pollution from power plants. I support finalizing these protections as proposed, and urge Delaware to invest more revenue into communities that are overburdened by pollution and underserved by our current energy and economic system.

Extensive independent analysis clearly shows that the improved limits will save Delaware families and businesses money, create jobs, and support a growing economy, as RGGI has throughout its successful history. Now is the time to build on that success, and deliver even more benefits to our great state.

Sincerely,

Timothy Woodruff  
1600 Tudor Pl  
Wilmington, DE 19810

Dear Governor Carney and DNREC officials,

*Thank you for developing this. Climate change and the environment are the most critical issues facing us today. Everything else we care about gets worse with environmental degradation.*

Thank you for proposing common-sense limits to climate pollution from power plants. I support finalizing these protections as proposed, and urge Delaware to invest more revenue into communities that are overburdened by pollution and underserved by our current energy and economic system.

Extensive independent analysis clearly shows that the improved limits will save Delaware families and businesses money, create jobs, and support a growing economy, as RGGI has throughout its successful history. Now is the time to build on that success, and deliver even more benefits to our great state.

Sincerely,

Lorie June Tudor  
1804 Baynard Blvd  
Wilmington, DE 19802

Dear Governor Carney and DNREC officials,

*Thank you!*

Thank you for proposing common-sense limits to climate pollution from power plants. I support finalizing these protections as proposed, and urge Delaware to invest more revenue into communities that are overburdened by pollution and underserved by our current energy and economic system.

Extensive independent analysis clearly shows that the improved limits will save Delaware families and businesses money, create jobs, and support a growing economy, as RGGI has throughout its successful history. Now is the time to build on that success, and deliver even more benefits to our great state.

Sincerely,

Kathryn Blair  
102 Lore Ave  
Wilmington, DE 19809

Dear Governor Carney and DNREC officials,

*The DE SEU could be instrumental in making this possible as they have a significant pool of funds accumulated from the RGGI auctions. Senator McDowell needs to put those funds to work more quickly. This he will not do willingly. He will need to be compelled.*

Thank you for proposing common-sense limits to climate pollution from power plants. I support finalizing these protections as proposed, and urge Delaware to invest more revenue into communities that are overburdened by pollution and underserved by our current energy and economic system.

Extensive independent analysis clearly shows that the improved limits will save Delaware families and businesses money, create jobs, and support a growing economy, as RGGI has throughout its successful history. Now is the time to build on that success, and deliver even more benefits to our great state.

Sincerely,

Jim Black  
1714 N Washington St Apt 1  
Wilmington, DE 19802

Dear Governor Carney and DNREC officials,

*The Sierra Club Members are dupes of wealthy interests like Warren Buffett and ExxonMobil.*

*Re: Pipelines.*

*Pipelines are THE safest and environmentally sound means to move hazardous fluids. Does any idiot in Sierra Club have any idea of how many millions of miles of hydrocarbon pipelines exist, cross-crossing North America. Democrat darling Warren Buffett announced his opposition to Keystone because he owns rail carriers BNSF and CSX. His interest is to move petroleum in the vastly more hazardous means of railcar transport.*

*The Sierra Club is comprised of technically deficient and dangerous nitwits.*

Thank you for proposing common-sense limits to climate pollution from power plants. I support finalizing these protections as proposed, and urge Delaware to invest more revenue into communities that are overburdened by pollution and underserved by our current energy and economic system.

Extensive independent analysis clearly shows that the improved limits will save Delaware families and businesses money, create jobs, and support a growing economy, as RGGI has throughout its successful history. Now is the time to build on that success, and deliver even more benefits to our great state.

Sincerely,

Richard Cronin  
305 Charleston Drive  
Wilmington, DE 19808

Dear Governor Carney and DNREC officials,

*There was a time when I was growing up when the Delaware River was too polluted to swim in, or to even fish in for food fish. The cleanliness of the river has improved markedly in the last 25 years. I do \*not\* want to see that progress reversed. And that's on the local scale. Globally, everything we do to address global warming would be a help.*

Thank you for proposing common-sense limits to climate pollution from power plants. I support finalizing these protections as proposed, and urge Delaware to invest more revenue into communities that are overburdened by pollution and underserved by our current energy and economic system.

Extensive independent analysis clearly shows that the improved limits will save Delaware families and businesses money, create jobs, and support a growing economy, as RGGI has throughout its successful history. Now is the time to build on that success, and deliver even more benefits to our great state.

Sincerely,

James Green  
80 Ethan Allen Ct  
Newark, DE 19711

Dear Governor Carney and DNREC officials,

*This is SO important!*

Thank you for proposing common-sense limits to climate pollution from power plants. I support finalizing these protections as proposed, and urge Delaware to invest more revenue into communities that are overburdened by pollution and underserved by our current energy and economic system.

Extensive independent analysis clearly shows that the improved limits will save Delaware families and businesses money, create jobs, and support a growing economy, as RGGI has throughout its successful history. Now is the time to build on that success, and deliver even more benefits to our great state.

Sincerely,

Sharman Stephenson  
502 Riverview Ave  
Claymont, DE 19703

Dear Governor Carney and DNREC officials,

*We all need to breathe clean air. Protecting our climate from pollution protects the health of all our citizens.*

Thank you for proposing common-sense limits to climate pollution from power plants. I support finalizing these protections as proposed, and urge Delaware to invest more revenue into communities that are overburdened by pollution and underserved by our current energy and economic system.

Extensive independent analysis clearly shows that the improved limits will save Delaware families and businesses money, create jobs, and support a growing economy, as RGGI has throughout its successful history. Now is the time to build on that success, and deliver even more benefits to our great state.

Sincerely,

Joan Schrider  
203 Old Oak Rd  
Newark, DE 19901

Dear Governor Carney and DNREC officials,

*We both know clean energy is the future. Let's get started on this now to continue to be a leader and the "first" state.*

Thank you for proposing common-sense limits to climate pollution from power plants. I support finalizing these protections as proposed, and urge Delaware to invest more revenue into communities that are overburdened by pollution and underserved by our current energy and economic system.

Extensive independent analysis clearly shows that the improved limits will save Delaware families and businesses money, create jobs, and support a growing economy, as RGGI has throughout its successful history. Now is the time to build on that success, and deliver even more benefits to our great state.

Sincerely,

Debbi Zarek  
120 Carriage Way  
Wilmington, DE 19803

Dear Governor Carney and DNREC officials,

*We don't need to be told by the likes of the Koch brothers how to run our state responsibly!*

*Most Sincerely,*

Dear Governor Carney and DNREC officials,

Thank you for proposing common-sense limits to climate pollution from power plants. I support finalizing these protections as proposed, and urge Delaware to invest more revenue into communities that are overburdened by pollution and underserved by our current energy and economic system.

Extensive independent analysis clearly shows that the improved limits will save Delaware families and businesses money, create jobs, and support a growing economy, as RGGI has throughout its successful history. Now is the time to build on that success, and deliver even more benefits to our great state.

Sincerely,

Mary Allen  
3 Thornberry Dr  
Ocean View, DE 19970

Dear Governor Carney and DNREC officials,
