Dear Mr. Emory,

I am writing to you regarding the California Air Resource Initiative. It has come to my attention that this initiative is being considered by DNREC. In recent weeks, I have spoken with constituents who have raised questions regarding the initiative. Their questions have mainly centered around cost benefit and the increase to the price of cars.

I hope we can speak further about the California Air Resource Initiative to discuss these issues, however in the mean time I wanted to make sure I shared with you the concerns of my constituents within Senate District 10. Thank you for your time and consideration.

Sincerely,

A handwritten signature in cursive script that reads "Bethany A. Hall-Long".
