

DNREC GDF Vapor Control Committee Meeting 3, 9:30 am-noon, December 19, 2013

Agenda

1. Welcome
2. Discussion of Draft Revision
3. Next Step: Public Workshop

Outline of Draft Revision

36.1 Applicability and Compliance Schedule

Applicability

- 36.1.1 Exemption 1
- 36.1.2 GDFs with throughput never greater than 10,000 gal/month
- 36.1.3 GDFs with throughput greater than 10,000 but less than xxx [TBD] gal/month
- 36.1.4 GDFs with throughput greater than xxx [TBD]

Compliance Schedule

- 36.1.7.1 New GDFs
- 36.1.7.2 Existing GDFs decommissioning

36.2 Definitions

36.3 Standards

- 36.3.1 GDFs with throughput >10,000 gal/m but < xxx [TBD] gal/m: semi-annual pres. decay test
- 36.3.2 Performance standard for GDFs with throughput > xxx [TBD] gal/m:
 - Continuous pressure monitoring (CPM);
 - Annual pressure decay test;
 - Maintain negative tank pressure, or
 - Maintain vapor tightness, or
 - Install and operate pressure management (PM) system
- 36.3.3 CARB Enhanced Phase I EVR system or components
- 36.3.4 Low spillage-drip nozzles
- 36.3.5 Posting, training and inspecting requirements

36.4 Testing Requirements

- 36.4.1 Pressure decay test, semi-annually or annually
- 36.4.3 CPM test, upon installation, then annually, and
 - 36.4.4 If needed, vapor tightness test, upon installation of CPM and then annually
 - 36.4.5 If needed, PM system test, upon installation and then annually

36.5 Recordkeeping and Reporting

36.6 Compliance Testing Company Requirements

36.7 Decommissioning Requirements

Appendix A: Decommissioning Checklist

Appendix B: Existing Stage II Requirements
