Air Quality permit APC-2000 / O292

Dear Secretary O' Mara

As civic association president for the Community of Minquadale in New Castle County that a request has been made by Diamond Materials for a permit to bring in and set up a concrete crushing operation that will be located within 75 yards of Minquadale residents homes. This operation will cause a quality of life issue with noise, dust, vibration and most of all cause health repertory issues. We are already dealing with Corrado American Construction with trucks and loaders dozers and large construction equipment causing noise, dust and vibration as well. Residents homes on the west Side of Minquadale have structural cracks caused by the movement This large equipment. This business is within 25 yards of homes and properties.

I'm requesting a public hearing on this application for approval for the usage of a concrete crusher

I'm also requesting that the hearing be held at the Minquadale Fire Company at the time that has been requested, I have already cleared that night with Matt Martin President of the Minquadale Fire Company. The Address of The Minquadale Fire Company is 129 Hazedel Ave. East Minquadale.

Sincerely

David Trincia

President
