

## **DNREC/Division of Air Quality**

### **LEGAL NOTICE**

The Secretary of the Department of Natural Resources and Environmental Control has signed Secretary's Order No. 2015-A-0035, amending Regulation 1138 – EMISSION STANDARDS FOR HAZARDOUS AIR POLLUTANTS FOR SOURCE CATEGORIES. This amendment, which revises existing Section 6, makes Delaware's Regulation 1138 consistent with a recent change to an existing Federal air toxics standard (40 CFR Part 63 Subpart N) that is applicable to new and existing chromium electroplating and anodizing operations. This amendment gives the owners or operators of Delaware's affected facilities and their testers the additional flexibility to use the EPA's newly approved performance testing alternative methodology. The effective date of this amendment to Section 6 is October 11, 2015.

Final Section 6, the Secretary's Order, and the Department's public hearing materials are available for public inspection at the Department of Natural Resources and Environmental Control's offices in the Blue Hen Corporate Center, 655 S. Bay Road (Suite 5N), Dover and at 715 Grantham Lane, New Castle. This information can also be obtained from the Department's regulatory website at <http://www.dnrec.delaware.gov/Air/Pages/Section6Revision.aspx>. For additional information, please contact Mr. Jim Snead, in New Castle, at (302) 323-4542.
