

DNREC/DIVISION OF AIR QUALITY

LEGAL NOTICE PUBLIC HEARING

The Department of Natural Resources and Environmental Control (DNREC), Division of Air Quality (DAQ) will conduct a public hearing on proposed amendments to Delaware air regulation 7 **DE Admin Code** 1101 “Definitions and Administrative Principles”. This public hearing will be held on Wednesday, June 22, 2016, beginning at 6:00 PM in the DNREC Richardson & Robbins Auditorium, 89 Kings Highway, Dover, DE.

This action is to revise the definition of volatile organic compounds (VOC) in Section 2.0 “Definitions” of 7 DE Admin Code 1101 so that it comports with federal requirements specified at 40 CFR 51.100. In summary, the action adds eight compounds to the list of compounds exempted from regulation as a VOC, and eliminates recordkeeping, reporting and modeling requirements associated with the already exempt compound t-butyl acetate (TBAC). This action is not anticipated to negatively impact air quality, and reduces the regulatory requirements that apply to existing and new businesses to allow the use and sale of products the regulation currently prohibits.

The proposed amendments are available for public review at the Department’s office at 715 Grantham Lane in New Castle, DE and 100 W. Water Street, Suite 6A in Dover, DE. They are also available at the website identified above, and in the June 1, 2016 edition of the Delaware Register of Regulations at <http://regulations.delaware.gov/services/register.shtml>.
