To: Gray, Valerie A. (DNREC)

Subject: EPA pollution controls

I attended the hearing on EPA pollution measures and made a statement. However, I wish to restate my position that Delaware should strongly support the EPA measures. Delaware is vulnerable to sea level rise and storms since it is the lowest lying state. In addition, there are health issues due to pollution of air and water. DNREC should enact strict standards for pollution control.

Sincerely,

Margaret Cassling
