Subject: CO2 Plan

Hi Valerie:

I want to add my comments to the planned meeting to schedule a "listening session" to see if Delaware wants to go along with Obama's Clean Power plan.

Anyone with any sense cannot help but approve and start this plan. Even Europe has approved a plan to cut green houses by 40% instead of the 30% suggestion by Obama.

We cannot stand by and "hope" that the air quality will clean itself in the next 15 years.

Climate warming is certainly an issue to be considered and is happening right now.

Please do whatever you can to see that this plan is instituted. Thank you.

Regards,

Robert & Nancy Pellow
