

The purpose of the regulations is to establish minimum training requirements for the certification of animal control officers and animal cruelty agents working in the State of Delaware. They also establish procedures for documenting all complaints filed against officers/agents, and conducting investigation of complaints concerning violations of this chapter.

The regulations are being revised to include:

- Revised Total Coliform Rule (RTCR) as section 7.4. This rule was finalized by EPA on April 1, 2012.
- Reorganization of the regulations by breaking up the large sections into smaller sections, allowing for easier reviews and checking of regulatory requirements. The Regulations are going from 10 sections to 20 sections.
- Section 4.1.6 on page 16 is being expanded to provide specific examples of unusual events so water system owners/operators have a more clear idea of when they need to contact DPH.
- Incorporate revisions identified by EPA when they reviewed the previous regulations.
- Sections that are no longer relevant or that have been superseded by more recent regulations have been deleted.

Any person who wishes to make written suggestions, testimony, briefs or other written materials concerning the proposed regulation should submit such comments by Tuesday, August 11, 2015 to:

Jamie Mack, Executive Assistant
Office of the Director
Delaware Division of Public Health

**DEPARTMENT OF NATURAL RESOURCES AND ENVIRONMENTAL
CONTROL
DIVISION OF AIR QUALITY
1138 Emission Standards for Hazardous Air Pollutants for Source Categories
PUBLIC NOTICE**

The Clean Air Act Amendments of 1990 stipulated a 2-phase rulemaking process that the EPA must use to protect the public health from exposure to hazardous air pollutants (HAPs). Consistent with this 2-phase process, the EPA adopted the maximum achievable control technology (MACT) standard (phase 1) applicable chromium electroplating and chromium anodizing facilities on January 25, 1995 as Subpart N in 40 CFR Part 63 and later amended those requirements (phase 2) by promulgating the more health-protective residual risk requirements on September 19, 2012.

Delaware adopted the federal MACT standard, i.e. the Subpart N requirements, as Section 6 of 7 **DE Admin. Code** 1138 on November 1, 2001 and later, amended Section 6 on September 1, 2013 to incorporate the more health-protective residual risk requirements.

On February 27, 2014, the EPA finalized, under a single rulemaking, over 80 additions to and revisions of the test methods and the testing provisions in various standards in order to improve the quality of test data and to provide testers the additional flexibility of using these newly approved alternative procedures. Subpart N was one of the changed standards.

Prior to that February 27 rulemaking, subsection §63.344(c) of Subpart N provided the owners or operators of affected chromium electroplating and chromium anodizing facilities up to 4 test methods to demonstrate compliance with the standard. In the February 27 final rule, the EPA provided the owners or operators subject to Subpart N with an optional 5th test method to select from by adding the South Coast Air Quality Management District "Test Method 205.1". The Department is proposing to amend Section 6 by adding the same optional, alternative test method, in order (1) to maintain the consistency of Delaware's air regulatory requirements under

Section 6 with the national requirements under Subpart N and (2) to give owners or operators of Delaware's affected facilities and their testers the additional flexibility to use the EPA's newly approved testing alternative.

Statements and testimony may be presented either orally or in writing at a public hearing to be held on Tuesday, August 4, 2015 starting at 6:00 PM in the DNREC Richardson & Robbins Auditorium, 89 Kings Highway, Dover, DE. If you are unable to attend or wish to submit your comments in advance of the public hearing, please send your comments to address below. Interested parties may also submit written comments to the Department, to the same address below, up until the end of the comment period, which will extend through August 19, 2015, unless a longer period is designated by the hearing officer at the public hearing.

DNREC – Division of Air Quality
Subject: August 4 Public Hearing
715 Grantham Lane
New Castle, DE 19720

DIVISION OF AIR QUALITY**1141 Limiting Emissions of Volatile Organic Compounds from Consumer and Commercial Products
PUBLIC NOTICE**

New Castle and Sussex Counties are in non-attainment under the 2008 ground-level ozone National Ambient Air Quality Standards (NAAQS) and further reduction in the emissions of volatile organic compounds (VOC), a precursor to ground-level ozone, is needed to meet the NAAQS. The amendments include adding 10 more products and/or product types to be regulated for VOC content and lowering the VOC content limits for 14 existing products and/or product types. This brings the total product types regulated under this regulation to 120 and will show a reduction in Delaware VOC emissions of 330 tons per year.

There will be a hearing on this proposed amendment on August 4, 2015 beginning at 6pm in the DNREC Auditorium in the Richardson & Robbins Building located at 89 Kings Highway in Dover Delaware. Interested parties may submit comments in writing to David Fees, Division of Air Quality, Blue Hen Corporate Center, Suite 5N, 655 South Bay Road, Dover, DE 19901 and/or statements and testimony may be presented either orally or in writing at the public hearing.

**DEPARTMENT OF SAFETY AND HOMELAND SECURITY
DELAWARE DEVELOPMENTAL DISABILITIES COUNCIL
PUBLIC NOTICE**

The Delaware Developmental Disabilities Council is an agency mandated by the Developmental Disabilities Assistance and Bill of Rights Act of 2000 to improve the services and lives for individuals with developmental and other disabilities. To celebrate the 25 year anniversary of the signing of the Americans with Disabilities Act, the Delaware Developmental Disabilities Council will be participating in a collaborative event to be held on July 18, 2015 on Lookerman Street and Legislative Mall in Dover. Please come and celebrate this historical event with the Council. For more information, please contact the Developmental Disabilities Council at 302-739-3333.

**DEPARTMENT OF STATE
DIVISION OF PROFESSIONAL REGULATION
2100 BOARD OF EXAMINERS IN OPTOMETRY
PUBLIC NOTICE**

The Delaware Board of Examiners in Optometry, pursuant to 24 Del.C. §2104(a)(1), proposes to revise its regulations. The proposed regulatory overhaul seeks to bring the regulations into conformity with current law and remove outdated and inconsistent provisions. For example, the proposed changes update the ethics section to more succinctly define unprofessional conduct. In addition, the proposed changes remove several regulations
