SUBJECT: Invitation to Public Workshop Concerning Draft Changes to Delaware's Boiler Safety Rules and Regulations on Thursday, December 8, 2016 from 1-3pm at DNREC's Lukens Drive office, 391 Lukens Drive, New Castle, Delaware

Dear Stakeholder:

The State of Delaware Department of Natural Resources and Environmental Control's (DNREC's) Boiler Safety Program is responsible for overseeing the construction, installation and repair of regulated boilers and pressure vessels that are installed in the State of Delaware. Over the last year, there have been several incidents that have resulted in DNREC reviewing the rules and regulations relating to how owners of boiler systems conduct preventative maintenance of their boiler systems. In addition, DNREC would like to require certain boiler systems to have carbon monoxide detectors that shutdown the boiler system if harmful levels of carbon monoxide are detected.

The DNREC Boiler Safety Program would like to invite you to a Public Workshop concerning draft changes to Delaware's Boiler Safety Rules and Regulations. The workshop will be held on Thursday, December 8, 2016 from 1-3pm at DNREC's Office located at 391 Lukens Drive in New Castle, Delaware.

A fact sheet describing the draft changes is included with this letter. The purpose of the workshop is to exchange ideas with, and solicit feedback from, stakeholders on the draft changes before they are formally proposed for adoption. Please let me know if you will be attending the workshop. If you cannot attend, I encourage you to visit our Boiler Safety Program website where you can access additional information concerning this rulemaking effort:

<http://www.dnrec.delaware.gov/BoilerSafety/Pages/Default.aspx>

To RSVP for the Public Workshop, please email Nina Dietrich at Nina.Dietrich@state.de.us. If you have any questions regarding the draft rule changes, please call or email me at 302-395-2500; or Alex.Rittberg@state.de.us.

Sincerely,

A handwritten signature in black ink, appearing to read 'Alex Rittberg'.

Alex Rittberg
