**Secretary's Order No.: 2019-F-0011**

**RE:        Approving Final Regulations to Amend 7 DE Admin. Code 3300: *Non-Tidal Finfish (3301 Definitions & 3304 Creel Limits, Size Limits and Seasons)***

**Date of Issuance: February 11, 2019**

**Effective Date: March 11, 2019**

Under the authority vested in the Secretary of the Department of Natural Resources and Environmental Control ("DNREC," "Department"), pursuant to 7 *Del.C.* §103(a) and (b), and any other relevant statutory authority, the following findings of fact based on the record, reasons, and conclusions are entered as an Order of the Secretary in the above-referenced regulatory proceeding.

**Background, Procedural History, and Findings of Fact**

This Order relates to proposed Amendments ("Amendments") to 7 DE Admin. Code 3300: *Non-Tidal Finfish (3301 Definitions & 3304 Creel Limits, Size Limits and Seasons)*. This action is being taken by the Department to adjust the start time for opening day of freshwater trout season on designated trout streams and to provide clarity on stream boundary locations and protected slot limit lengths.

Opening day of freshwater trout seasons often have a specified start time to help manage angler competition for fishing locations, but the current 7:30 a.m. opening day start time for Delaware's designated trout streams serves no current resource management purpose, is not meaningful for managing angler competition for fishing locations, and unnecessarily limits angler access and participation. At the suggestion of a member of the public, Delaware's

Advisory Council on Wildlife and Freshwater Fish recommended that the start time of Delaware's opening freshwater trout season be changed from 7:30 a.m. to 7:00 a.m. This change will make the start time consistent with the 7:00 a.m. opening day start time established for designated trout ponds in Kent and Sussex Counties and provide for expanded angler opportunity and participation. Angling hours for the remainder of the trout season, which are one-half hour before sunrise to one-half hour after sunset, remain the same.

The Department also proposes to add clarity to the definition for the portion of Pike Creek that is designated as a trout stream to reflect contemporary landmark and roadway naming. The Department also proposes to add clarity that the upper bound of the smallmouth bass protected slot limit includes those fish measuring 17 inches in total length.

The Department has the statutory basis and legal authority to act with regard to promulgation of the proposed Amendments to 7 DE Admin. Code 3300: *Non-Tidal Finfish (3301 Definitions & 3304 Creel Limits, Size Limits and Seasons)*, pursuant to 7 Del.C. §103(a) and (b). The Department published its proposed Amendments in the January 1, 2019 Delaware *Register of Regulations*. Thereafter, the public hearing regarding this matter was held on January 23, 2019.

No members of the public attended the public hearing. Pursuant to Delaware law, the record remained open for fifteen additional days subsequent to the date of the public hearing for receipt of public comment. The hearing record formally closed with regard to public comment at the close of business on February 7, 2019, with no comments having been received by the Department during any phase of this proposed regulatory promulgation.

It should be noted that all notification and noticing requirements concerning this matter were met by the Department. Proper notice of the hearing was provided as required by law.

Hearing Officer Bethany A. Fiske prepared a Hearing Officer's Report dated February 8, 2019. The report documents the proper completion of the required regulatory amendment process, establishes the record, and recommends the adoption of the proposed Amendments as attached to the report as Appendix A.

## Reasons and Conclusions

Based on the record developed by the Department's experts and established by the Hearing Officer's Report, I find that the proposed Amendments to 7 DE Admin. Code 3300: *Non-Tidal Finfish (3301 Definitions & 3304 Creel Limits, Size Limits and Seasons)* are well-supported. Therefore, the recommendations of the Hearing Officer are hereby adopted, and I direct that the proposed Amendments be promulgated as final. I further find that the Department's experts in the Division of Fish and Wildlife fully developed the record to support adoption of these proposed Amendments.

In conclusion, the following reasons and conclusions are entered:

1. The Department has the statutory basis and legal authority to act with regard to the proposed Amendments to 7 DE Admin. Code 3300: *Non-Tidal Finfish (3301 Definitions & 3304 Creel Limits, Size Limits and Seasons)*, pursuant to 7 Del.C. §103(a) and (b);
2. The Department has jurisdiction under its statutory authority, pursuant to 7 Del.C. Ch. 60, to issue an Order adopting these proposed Amendments as final;
3. The Department provided adequate public notice of the proposed Amendments and all proceedings in a manner required by the law and regulations, and provided the public with an adequate opportunity to comment on the same, including at the time of the public hearing held on January 23, 2019, and during the 15 days subsequent to the hearing (through February 7, 2019), before making any final decision;
4. Promulgation of the proposed Amendments to 7 DE Admin. Code 3300: *Non-Tidal Finfish (3301 Definitions & 3304 Creel Limits, Size Limits and Seasons)* will adjust the start time for opening day of freshwater trout season on designated trout streams and to provide clarity on stream boundary locations and protected slot limit lengths;
5. The Department has reviewed the proposed Amendments in light of the Regulatory Flexibility Act, consistent with 29 Del.C. Ch. 104, and has selected Exemption B1, as this regulation is not substantially likely to impose additional costs or burdens to individuals or small businesses;

6. The Department's Hearing Officer's Report, including its established record and the recommended proposed Amendments as set forth in Appendix A, are hereby adopted to provide additional reasons and findings for this Order;
7. The Department's proposed Amendments, as published in the January 1, 2019 Delaware *Register of Regulations*, and as set forth in Appendix A, are adequately supported, are not arbitrary or capricious, and are consistent with the applicable laws and regulations. Consequently, the Amendments are approved as final, and shall go into effect ten days after publication in the next available issue of the Delaware *Register of Regulations*; and
8. The Department shall submit this Order approving as final the proposed Amendments to 7 DE Admin. Code 3300: *Non-Tidal Finfish (3301 Definitions & 3304 Creel Limits, Size Limits and Seasons)* for publication in its next available issue, and provide such other notice as the law and regulation require and the Department determines is appropriate.

Department of Natural Resources and Environmental Control

**RE:** **Proposed Regulatory Amendments to 7 DE Admin. Code 3300: *Non-Tidal Finfish (3301 Definitions & 3304 Creel Limits, Size Limits and Seasons)***

**DATE:** February 8, 2019

### **I. BACKGROUND:**

A public hearing was held on Wednesday, January 23, 2019, at 6:00 p.m. at the Department of Natural Resources and Environmental Control (“DNREC,” “Department”), 89 Kings Highway, Dover, Delaware to receive comment on proposed Amendments (“Amendments”) to 7 DE Admin. Code 3300: *Non-Tidal Finfish (3301 Definitions & 3304 Creel Limits, Size Limits and Seasons)*. This action is being taken by the Department to adjust the start time for opening day of freshwater trout season on designated trout streams and to provide clarity on stream boundary locations and protected slot limit lengths.

Opening day of freshwater trout seasons often have a specified start time to help manage angler competition for fishing locations, but the current 7:30 a.m. opening day start time for Delaware’s designated trout streams serves no current resource management purpose, is not meaningful for managing angler competition for fishing locations, and unnecessarily limits angler access and participation. At the suggestion of a member of the public, Delaware’s Advisory Council on Wildlife and Freshwater Fish recommended that the start time of Delaware’s opening freshwater trout season be changed from 7:30 a.m. to 7:00 a.m. This change will make the start time consistent with the 7:00 a.m. opening day start time established for designated trout ponds in Kent and Sussex Counties and provide for expanded angler opportunity and participation. Angling hours for the remainder of the trout season, which are one-half hour before sunrise to one-half hour after sunset, remain the same.

The Department also proposes to add clarity to the definition for the portion of Pike Creek that is designated as a trout stream to reflect contemporary landmark and roadway naming.

The Department also proposes to add clarity that the upper bound of the smallmouth bass protected slot limit includes those fish measuring 17 inches in total length.

The Department has the statutory basis and legal authority to act with regard to promulgation of the proposed Amendments to 7 DE Admin. Code 3300: *Non-Tidal Finfish (3301 Definitions & 3304 Creel Limits, Size Limits and Seasons)*, pursuant to 7 Del.C. §103(a) and (b). The Department published its proposed Amendments in the January 1, 2019 Delaware *Register of Regulations*. Thereafter, the public hearing regarding this matter was held on January 23, 2019.

No members of the public attended the public hearing. Pursuant to Delaware law, the record remained open for fifteen additional days subsequent to the date of the public hearing for receipt of public comment. The hearing record formally closed with regard to public comment at the close of business on February 7, 2019, with no comments having been received by the Department during any phase of this proposed regulatory promulgation.

It should be noted that all notification and noticing requirements concerning this matter were met by the Department. Proper notice of the hearing was provided as required by law.

## **II. SUMMARY OF THE PUBLIC HEARING RECORD:**

The public hearing record consists of the following documents: (1) a verbatim transcript; and (2) twelve documents introduced by Department staff at the public hearing held on January 23, 2019, and marked by the presiding Hearing Officer as Department Exhibits 1-12. The Department's person primarily responsible for the drafting and overall promulgation of these proposed Amendments, Stewart Michels, Environmental Program Manager with the Division of Fish and Wildlife, developed the record with the relevant documents in the Department's files.

As stated previously, no members of the public attended the January 23, 2019 public hearing, and no comment was received by the Department at any time during the course of this regulatory promulgation. Accordingly, the Department's proposed Amendments are expressly incorporated into the hearing record, and are attached as Appendix A for the Secretary's review.

### III. RECOMMENDED FINDINGS AND CONCLUSIONS:

Based on the record developed, I find and conclude that the Department has provided appropriate reasoning regarding the need for the proposed Amendments to 7 DE Admin. Code 3300: *Non-Tidal Finfish (3301 Definitions & 3304 Creel Limits, Size Limits and Seasons)*.

Accordingly, I recommend promulgation of the same, in the customary manner provided by law.

Further, I recommend the Secretary adopt the following findings and conclusions:

1. The Department has the statutory basis and legal authority to act with regard to the proposed Amendments to 7 DE Admin. Code 3300: *Non-Tidal Finfish (3301 Definitions & 3304 Creel Limits, Size Limits and Seasons)*, pursuant to 7 *Del.C.* §103(a) and (b);
2. The Department has jurisdiction under its statutory authority, pursuant to 7 *Del.C.* Ch. 60, to issue an Order adopting these proposed Amendments as final;
3. The Department provided adequate public notice of the proposed Amendments and all proceedings in a manner required by the law and regulations, and provided the public with an adequate opportunity to comment on the same, including at the time of the public hearing held on January 23, 2019, and during the 15 days subsequent to the hearing (through February 7, 2019), before making any final decision;
4. Promulgation of the proposed Amendments to 7 DE Admin. Code 3300: *Non-Tidal Finfish (3301 Definitions & 3304 Creel Limits, Size Limits and Seasons)* will adjust the start time for opening day of freshwater trout season on designated trout streams and to provide clarity on stream boundary locations and protected slot limit lengths;
5. The Department has reviewed the proposed Amendments in light of the Regulatory Flexibility Act, consistent with 29 *Del.C.* Ch. 104, and has selected Exemption B1, as this regulation is not substantially likely to impose additional costs or burdens to individuals or small businesses;
6. The Department's proposed Amendments, as initially published in the January 1, 2019 Delaware *Register of Regulations*, and set forth in Appendix A, are adequately supported, are not arbitrary or capricious, and are consistent with applicable laws and regulations. Consequently, the Amendments should be approved as final, and shall go into effect ten days after publication in the next available issue of the Delaware *Register of Regulations*; and

7. The Department shall submit the proposed Amendments as final regulatory Amendments to 7 DE Admin. Code 3300: *Non-Tidal Finfish (3301 Definitions & 3304 Creel Limits, Size Limits and Seasons)* for publication in its next available issue, and provide such other notice as the law and regulation requires and the Department determines appropriate.

**1. TITLE OF THE REGULATIONS:**

7 DE Admin. Code 3300 Non-Tidal Finfish - 3301 Definitions and 3304 Creel Limits, Size Limits and Seasons.

**2. BRIEF SYNOPSIS OF THE SUBJECT, SUBSTANCE AND ISSUES:**

The Department proposes to adjust the start time for the opening day of freshwater trout season on designated trout streams. Opening day of the freshwater trout season is an event that draws large crowds of anglers to New Castle County's designated trout streams. Opening day of trout seasons often have a specified start time to help manage angler competition for fishing locations, but the current 7:30 a.m. opening day start time serves no current resource management purpose, is not meaningful for managing angler competition for fishing locations and unnecessarily limits angler access and participation. At the suggestion of a member of the public, Delaware's Advisory Council on Wildlife and Freshwater Fish recommended that the start time of Delaware's opening freshwater trout season be changed from 7:30 a.m. to 7 a.m., which is consistent with the 7:00 a.m. opening day start time established for designated trout ponds in Kent and Sussex Counties and provides expanded angler opportunity and participation. Angling hours for the remainder of the trout season (one-half hour before sunrise to one-half hour after sunset) are not affected by this action.

The Department also proposes two technical corrections to the Non-Tidal Finfish regulations. The Department proposes to clarify the definition for that portion of Pike Creek that is designated as a trout stream to reflect contemporary landmark and roadway naming. The Department also proposes to clarify that the upper bound of the smallmouth bass protected slot limit includes those fish measuring 17 inches in total length.

**3311 Freshwater Fisherman Registry**

All persons ages 16 and older who wish to fish in Delaware's fresh or tidal waters or both in any given year must first obtain a Fisherman Identification Network (F.I.N.) number for the year in question before fishing. This number may be obtained at no cost to the angler by calling a toll free number and providing the required information over the phone or by entering the required information on-line through an internet access portal designated by the Department for that purpose. Each person who requests a F.I.N. number is to write this number on his or her Delaware fishing license, or those who are legally unlicensed must be able to produce this number when checked by an enforcement agent when fishing in Delaware waters. Failure to provide a valid F.I.N. number for the year in question is a violation of 7 Del.C. §501 in the case of residents, or 7 Del.C. §506 in the case of non-residents, and will be treated the same as a failure to have a fishing license before going fishing. Information provided during the process of obtaining a F.I.N. number shall be treated as confidential and may only be shared with the National Marine Fisheries Service for the purpose of compliance with federal requirements for a national registry of marine fishermen.
