

Creating a Flood Ready Community

Delaware Planning
Education Program

Module 1

Risk and Hazard Concepts

Hazard (*Flooding)

Riverine

Coastal

Drainage

Adapted from FEMA, IS-393.A
Introduction to Hazard Mitigation

Exposure

People

Property

Systems

Adapted from FEMA, IS-393.A
Introduction to Hazard Mitigation

Vulnerability

Building Standards

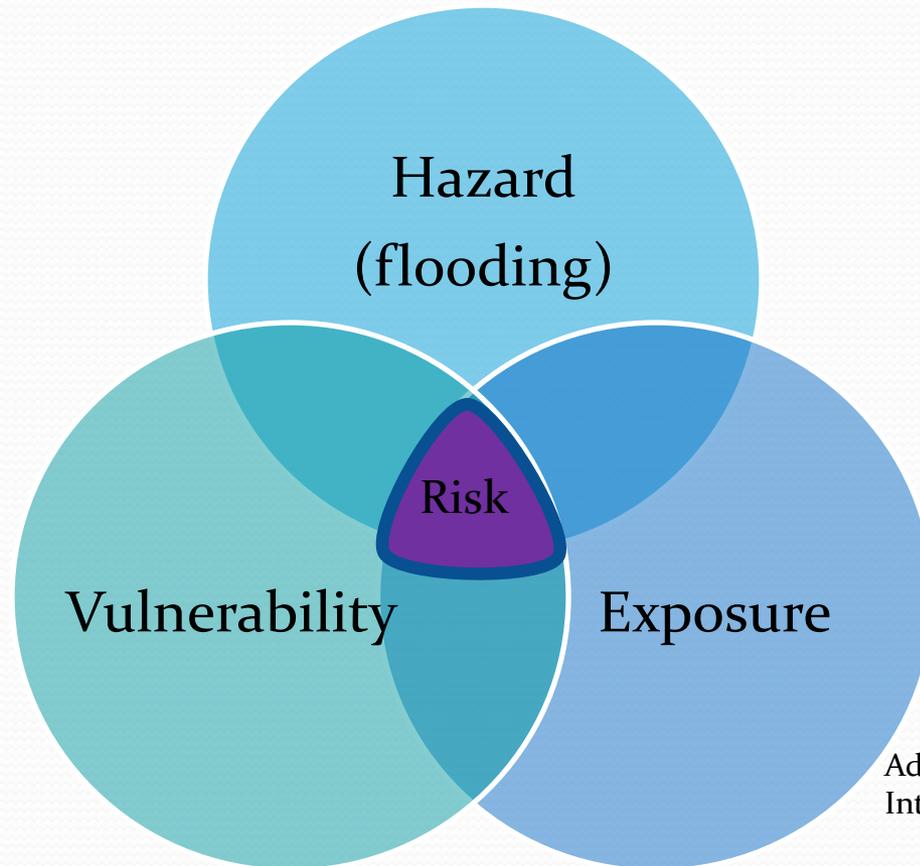

At-risk populations

Flood Attenuation

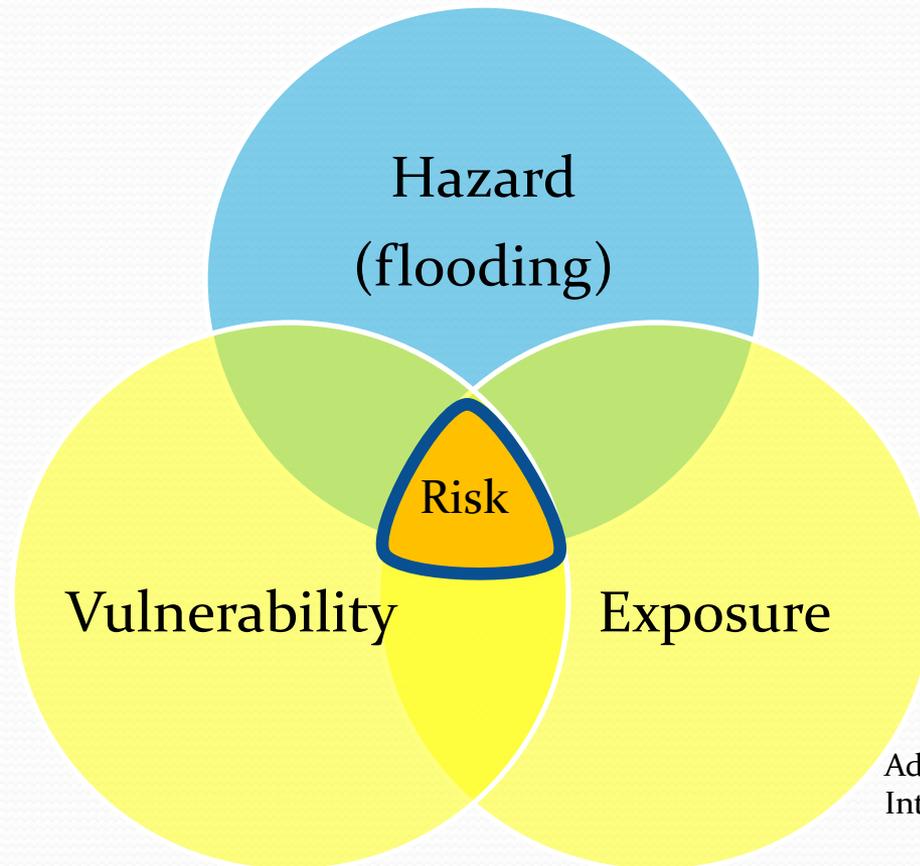

Adapted from FEMA, IS-393.A
Introduction to Hazard Mitigation

Risk = Hazard & Exposure & Vulnerability

Adapted from FEMA, IS-393.A
Introduction to Hazard Mitigation

Risk = Hazard & Exposure & Vulnerability

Adapted from FEMA, IS-393.A
Introduction to Hazard Mitigation

Mitigate and Adapt to Reduce Risk

Protect

Retreat

Accommodate

Avoid

Municipal officials hold the keys to reducing flood risk

- Building codes and zoning
- Infrastructure Improvements
- Conservation and enhancement of natural areas
- Education and outreach
- Evacuation and response plans
- Funding
- Planning Tools
 - Comp Plans, Hazard Mitigation Plans, Capital Spending Plans
