

Delaware Sea Level Rise Advisory Committee

Work Completed:

- Statewide Sea Level Rise Vulnerability Assessment
- Identified resources at high risk to sea level rise
- Identified a list of 61 options for preparing for sea level rise
- Public Engagement

The goal of the Sea Level Rise Advisory Committee is to assess Delaware's vulnerability to current and future inundation problems that may be exacerbated by sea level rise and to develop a set of recommendations for state agencies, local governments, businesses and citizens to enable them to adapt programs, policies, business practices and make informed decisions.

Next Steps:

- Incorporate public comments
- Finalize list of options
- Draft Adaptation Plan
- Public Review
- Finalize Adaptation Plan
- Continue work to improve our ability to adapt
