Air Quality**

2012

Air Toxics Strategic Plan

Mid-year Status

(January through June 2012)

Detailed Report

Delaware
Division of Air Quality
2012 Air Toxics Strategic Plan

The Air Toxics Strategic Plan (ATSP) is a five-year plan of activities to be undertaken by Division of Air Quality (DAQ) and its partners to reduce the risk of adverse health effects caused by the inhalation of air toxics. The 2012 - 2016 ATSP, finalized on December 28, 2011, is organized within the following components.

- **Implement an on-going program to address the risks from exposure to air toxics**
- **Build a greater understanding of ambient air toxics in the environment**
- **Identify potential harm from exposure to air toxics**
- **Gather information related to air toxics sources**
- **Identify options for reducing air toxics in the environment**
- **Implement appropriate actions to reduce the harm from exposure to air toxics**
- **Evaluate the effectiveness of the actions taken to reduce harm from exposure to air toxics**
- **Enhance DAQ air toxics resources**

ACRONYMS

AFS	EPA's Air Facility System
AIRS - AQS	EPA's Air Quality System Database
ATSP	Air Toxics Strategic Plan
CAA	Clean Air Act
CMAQ	Congestion Mitigation and Air Quality Improvement Program
CAL LEV III	California's Super Ultra Low-Emission Vehicle Program
CATS	Community Air Toxics Study
DAQ	Delaware Division of Air Quality
DE	Delaware
DERA	Diesel Emissions Reduction Act
DeDOT	Delaware Department of Transportation
DENs	Delaware Environmental Navigator
DNREC	Delaware Department of Natural Resources and Environmental Control
DPH	Division of Public Health
DVRPC	Delaware Valley Regional Planning Commission
EPA	U. S. Environmental Protection Agency
EPA R3	U. S. Environmental Protection Agency Region 3
E & C	Division of Air Quality's Engineering and Compliance Branch
FCE	Full Compliance Evaluation
GACT	Generally Achievable Control Technology
HAPs	Hazardous Air Pollutants, as defined in Section 112(b) of the 1990 Amendments to the Clean Air Act
HMIWI	Hospital, Medical, and Infectious Waste Incinerator
MACT	Maximum Achievable Control Technology
MPO	Metropolitan Planning Organization
NAAQS	National Ambient Air Quality Standard
NACAA	National Association of Clean Air Agencies
NESHAP	National Emission Standard for Hazardous Air Pollutants
OTC	Ozone Transport Commission
QA/QC	Quality Assurance/Quality Control
SAN	Start Action Notice
UST	Underground Storage Tank
VOC	Volatile Organic Compound
WILMAPCO	Wilmington Area Planning Council

2012 Air Toxics Strategic Plan – Mid-year Detailed Status Report

Implement an ongoing program to address the risks from exposure to air toxic		6/30/12 Status	Expected Completion
2012	1. Continue to build the strategic planning capacity to implement risk-based assessment programs to mitigate any unacceptable air toxics impacts.		
	a. Review status and complete year-end status report on the 2011 individual Strategic Plans.	• Completed on 2/17/12	---
	b. Track implementation and report year-end-status of the 2011 Air Toxics Strategic Plan by 3/31/12.	• Completed on 3/12/12	---
	c. Review status and complete mid-year status report on the 2012 individual Strategic Plans.	• No activity to date	• 7/31/12
	d. Track implementation and report mid-year status on the 2012 Air Toxics Strategic Plan by 9/30/12.	• Commenced development of the mid-year status report • Developed mid-year reporting templates and sent to the participating groups on 5/23/12 • Developed the overall (combined) mid-year status report template on 6/10/12	• 9/30/12 --- ---
	e. Facilitate the development of a gap analysis within the elements of the strategic planning process and incorporate the results into the development of the 2013 Air Toxics Strategic Plan by 10/31/12.	• No activity to date	• 4Q12
	f. Updating of the Air Toxics Strategic Plan for 2013-2017		
	i. Review and revise, if needed, Air Toxics Area Source Program and timing, as part of the 2013 Air Toxics Strategic Plan by 10/12.	• No activity to date	• 11/30/12
	ii. Coordinate development of the 2013 Air Toxics Strategic Plan.	• No activity required to date	• 11/30/12
	iii. Update individual Strategic Plans for 2013-2017.	• No activity required to date	• 11/30/12
	iv. Update and finalize 2013 Air Toxics Strategic Plan for years 2013 to 2017 by 12/31/12.	• No activity required to date	• 12/31/12
	2. Continue participation on internal, local, regional, and national committees to identify air quality problems, develop strategies/solutions, and implement DE air toxics program.	• Participated on NACAA Air Toxics Committee's bimonthly calls	• Ongoing

Continued on next page

2012 Air Toxics Strategic Plan – Mid-year Detailed Status Report

	Implement an ongoing program to address the risks from exposure to air toxic	6/30/12 Status	Expected Completion
2012 Cont.	3. Continue participation on internal, local, regional, and national committees to identify air quality problems related to small businesses, develop strategies/solutions, and implement in the DE air toxics program and small business assistance program.	<ul style="list-style-type: none"> • Continued to participate with the National Small Business Assistance program 	<ul style="list-style-type: none"> • Ongoing
NEW	4. Continue participation on internal, local, regional, and national committees to identify air quality problems related to greenhouse gases, develop strategies, and identify DE solutions.	<ul style="list-style-type: none"> • Continued to participate with the . . . • Regional Greenhouse Gas Initiative • Transportation & Climate Initiative • North America 2050 Partnership • Clean Cities/States Program • Clean Fuel Standard 	<ul style="list-style-type: none"> • Ongoing
	5. Identify regulatory deficiencies, implementation problems, and training needs and recommend appropriate solutions.	<ul style="list-style-type: none"> • Completed participation on Value Stream Mapping of Reg. Development w/ design of the SAN electronic submittal in May 2012 	- - -
	6. Continue to evaluate and realign Engineering and Compliance’s assignments, organization structure and protocols to better address risk-based air toxics programs, as needed.	<ul style="list-style-type: none"> • No air toxics-related realignments identified during this period 	<ul style="list-style-type: none"> • Ongoing
	7. Review and revise, if needed, air toxics area source activities and timing as part of the 2013 Air Toxics Strategic Plan by 12/12.	<ul style="list-style-type: none"> • No activity this period 	<ul style="list-style-type: none"> • 11/12
	8. Continue to evaluate and realign Area Source Compliance’s assignments and organization structure to better address risk-based air toxics programs, as needed.	<ul style="list-style-type: none"> • Filled two vacant position in the Area Source Compliance group • Began training of new personnel 	<ul style="list-style-type: none"> • Ongoing

2012 Air Toxics Strategic Plan – Mid-year Detailed Status Report

	Build greater understanding of ambient air toxics environment	6/30/12 Status	Expected Completion
2012	1. Determine ambient air toxics concentrations for selected HAPs in Delaware.		
	a. Monitor, pending network review to meet changing resources, for Carbonyls and metals at one (1) air toxic monitoring station and VOCs at two (2) air toxic monitoring stations and report status of monitoring activities to EPA R3, as appropriate.	<ul style="list-style-type: none"> • Six months of sampling successfully completed both monitoring stations 	<ul style="list-style-type: none"> • Ongoing
	b. Submit quarterly air toxics monitoring data to national AIRS-AQS database following data validation.	<ul style="list-style-type: none"> • All validated results were submitted to EPA 	<ul style="list-style-type: none"> • Ongoing
	c. Continue to collaborate with University of Delaware on air toxics research and special projects.	<ul style="list-style-type: none"> • No air toxics related projects undertaken during this period • Collaborated with University of Delaware personnel on new project to be conducted later this year 	<ul style="list-style-type: none"> • Ongoing • 4Q2012
	d. Working in partnership with the University of Delaware, continue the Upper Air Profiler project, which will provide meteorological data to National Oceanic and Atmospheric Administration repository for potential use in air toxics modeling, etc.	<ul style="list-style-type: none"> • Funding source found to effect repairs to the profiler and to relocate the profiler to Sussex County for use on a University of Delaware project 	<ul style="list-style-type: none"> • 4Q2012
	e. Complete and issue the “Community Air Toxics Study” final report by 3/31/12.	<ul style="list-style-type: none"> • Monitoring data being validated • Final report to be issued to EPA during 2nd half of year 	<ul style="list-style-type: none"> • Ongoing • 9/30/12
	f. Continue to identify funding requirements and sources, as well as, staffing needed to fully utilize the air toxics analytical lab.	<ul style="list-style-type: none"> • Hired chemist to fill recently vacated position • Seeking funding for air toxics monitoring project in areas around the Delaware City Refinery 	<ul style="list-style-type: none"> • Ongoing
	g. Continue to support the gas chromatographic mass spectrometer platform operations and maintenance through additional monitoring activities.	<ul style="list-style-type: none"> • Training of new personnel completed • Service contract was approved 	<ul style="list-style-type: none"> - - - - - -
	h. Undertake new or special monitoring needs that may surface.	<ul style="list-style-type: none"> • Commenced planning on a new methyl bromide monitoring project in the communities around Port of Wilmington 	<ul style="list-style-type: none"> • 2013
	2. Provide air toxics modeling support to meet community and internal needs.	<ul style="list-style-type: none"> • No air toxics modeling needs identified during this period 	<ul style="list-style-type: none"> • Ongoing
3. Conduct “remote sensing” study to meet ozone State Implementation Plan requirements.	<ul style="list-style-type: none"> • Received report on most recent remote sensing study in February; report will be submitted with the annual Inspection and Maintenance report 	<ul style="list-style-type: none"> • 7/31/12 	

2012 Air Toxics Strategic Plan – Mid-year Detailed Status Report

	Identify potential harm from exposure to air toxics	6/30/12 Status	Expected Completion
2012	1. Provide modeling support to Air Quality’s Community Air Toxics Study (CATS), pending the completion of the CATS.	• On hold pending completion of QA/QC validation of monitoring data	• Ongoing
	2. Provide modeling support to Engineering & Compliance (E&C) associated with risk-based permitting decisions, as needed.	• Reviewed and performed modeling to support risk-based permit decisions on a permit application from a facility at the Port of Wilmington	• Ongoing
	3. Analyze monitoring data from completed special monitoring projects and refine air toxics model, if appropriate.		
	a. Analyze ultra-fine particle data collected by DNREC, University of Delaware, and Duke University.	• Year-to-date analyses have been focused on data not related to air toxics	• Ongoing
	b. Continue source apportionment analysis focusing on the air toxics of concern.		
	i. Contributions of mobile sources versus stationary sources, as resources become available.	• On hold pending availability of resources	• Unknown
	ii. Diesel particulate matter, as resources become available.	• On hold pending availability of resources	• Unknown
	iii. Residential wood stoves, as resources become available.	• On hold pending availability of resources	• Unknown
	4. Characterize the cancer and non-cancer risks through future air toxics assessment programs.		
	a. Coordinate ongoing risk assessment support and guidance of DPH for air toxics risk reduction activities.	• No requests received during this period	• Ongoing

2012 Air Toxics Strategic Plan – Mid-year Detailed Status Report

	Gather information related to air toxics sources	6/30/12 Status	Expected Completion
2012	1. Develop and submit the 2011 National Emission Inventory for HAPs by 12/31/12.	<ul style="list-style-type: none"> • Nearly all stationary point source data received by 6/29 	<ul style="list-style-type: none"> • 12/31/12
	2. Provide emissions inventory support to the air toxics education and reduction programs, as required.	<ul style="list-style-type: none"> • No air toxics emissions inventory support requested during this period 	<ul style="list-style-type: none"> • Ongoing
	3. Track the emissions of air toxics of concern from significant sources contributing to elevated risks of exposure to air toxics, as needed.	<ul style="list-style-type: none"> • No requests for information for air toxics of concern during this period 	<ul style="list-style-type: none"> • Ongoing
	4. By 12/12, identify and enter into AFS all new or previously unknown affected sources which are subject to any area source standards promulgated under 112(d) or 112(k) of the CAA.	<ul style="list-style-type: none"> • No new or previously unidentified affected area source discovered during this period 	<ul style="list-style-type: none"> • Ongoing
	5. Until data entry problems with AFS (via DENs) are resolved, continue to improve the consolidated source data base by entering all new or previously unknown affected sources which are subject to Perchloroethylene Dry Cleaning standard (1138 Sect 5), Methylene Chloride Paint Stripping standard (1138 Sect 13), and Motor Vehicle and Mobile Equipment Surface Coating standard (1138 Sect 15), as well as gasoline delivery vessels.	<ul style="list-style-type: none"> • Continued to maintain and update manual database of affected Delaware sources 	<ul style="list-style-type: none"> • Ongoing
	6. Submit UST Semiannual Activities Reports to the EPA by April 30 and October 31, 2012.	<ul style="list-style-type: none"> • Submitted Semiannual Activities Report in April 	<ul style="list-style-type: none"> • 10/12
	7. Assist in the identification of known or potentially affected sources for newly promulgated area source standards, as needed.	<ul style="list-style-type: none"> • No newly promulgated area source standards or requests for assistance in identifying affected sources received during this period 	<ul style="list-style-type: none"> • Ongoing
	8. Monitor and maintain the Delaware Online Asbestos Notification System (DOANS).	<ul style="list-style-type: none"> • Continued to <ul style="list-style-type: none"> • Edit the active user database • Provide data entry for new notifications 	<ul style="list-style-type: none"> • Ongoing

2012 Air Toxics Strategic Plan – Mid-year *Detailed* Status Report

	Identify options for reducing air toxics in the environment	6/30/12 Status	Expected Completion
2012	1. Continue to monitor federal activities associated with the new Lead NAAQS and communicate any EPA proposed actions/decisions impacting Delaware.	• No activity required to date	• Ongoing
	2. Provide technical assistance on lightering operations to DAQ and Ozone Transport Commission, as needed.	• Provided Permitting organization emission information regarding the lightering of gasoline and other refined products in support of a request for permit modification to lighter these cargo in addition to crude oil	• Ongoing
	3. Continue to support Division of Air Quality efforts to determine when to phase out Stage II requirements.	• Continued to participate at DAQ meetings in support of DAQ efforts on phase out of Stage II	• Ongoing
	4. Initiate and continue to include, where applicable, the mobile source air toxics issues in programs and activities, which previously addressed only criteria pollutants.		
	a. Participate in inter-agency consultation (IAC) workgroup’s 8-hour conformity determinations for New Castle, Kent and Sussex Counties. Report status to EPA R3, as appropriate.	• Participated in monthly WILMAPCO Air Quality Subcommittee (AQS) meetings	• Ongoing
	b. Continue to provide comments and/or recommendations to the MPOs and DelDOT on the priority of funding projects with CMAQ funds. Report status to EPA R3, as appropriate.	• Continued to provide Department’s priorities on funding projects at WILMAPCO AQS meetings	• Ongoing
	5. Continue participation in the Mid Atlantic Diesel Collaborative (MADC) projects and report status to EPA R3, if appropriate.	• Participated in MADC meeting • Evaluated and commented on submitted project candidates for DERA’s competitive grants	• Ongoing
	6. Continue to promote smart growth oversight that encourages consideration of impact of mobile source emissions.	• Continued to review and comment on Preliminary Land Use Service (PLUS) applications	• Ongoing

2012 Air Toxics Strategic Plan – Mid-year *Detailed* Status Report

	6/30/12 Status	Expected Completion	
2012 Cont.	Identify options for reducing air toxics in the environment		
	7. Continue to evaluate federal stationary source rulemakings, communicate impacts internally and provide comments on the rules, as appropriate. Collaborate and maintain open communications with rulemaking involving joint responsibilities.		
	a. Newly proposed amendments to federal air toxics and incinerator standards.		
	i. Area source Prepared Feeds Manufacturing GACT Standard (Federal Sub DDDDDDD).	<ul style="list-style-type: none"> • Completed review; no comments were necessary 	---
	ii. Electric Arc Furnace MACT Standard (Federal Sub YYYYY).	<ul style="list-style-type: none"> • No EPA proposed rule to date 	<ul style="list-style-type: none"> • Unknown
	iii. Industrial, Commercial & Institutional Boiler MACT Standard (Federal Sub DDDDD).	<ul style="list-style-type: none"> • No <u>new</u> EPA proposed rule in 2012 	<ul style="list-style-type: none"> • Unknown
	iv. Commercial and Industrial Solid Waste Incinerator Standard (Federal Sub CCCC).	<ul style="list-style-type: none"> • No <u>new</u> EPA proposed rule in 2012 	<ul style="list-style-type: none"> • Unknown
	b. Newly proposed federal residual risk standards.		
	i. Chromium Electroplating Standard (Federal Sub N).	<ul style="list-style-type: none"> • EPA proposed on 2/8/12; no comments submitted (low priority) 	---
	ii. Secondary Aluminum Production Standard (Federal Sub RRR).	<ul style="list-style-type: none"> • EPA proposed on 2/14/12; no comments submitted (low priority) 	---
	iii. Aerospace Manufacturing and Rework Facilities Standard (Federal Sub GG).	<ul style="list-style-type: none"> • No EPA proposed rule to date 	<ul style="list-style-type: none"> • Unknown
	iv. Petroleum Refineries Standard (Federal Sub CC).	<ul style="list-style-type: none"> • No EPA proposed rule to date 	<ul style="list-style-type: none"> • Unknown
	8. Continue to implement review protocols and evaluate federal stationary source rulemakings, communicate impacts internally and provide comments on the proposed rules, as appropriate.		
	a. Newly proposed amendments to federal air toxics and incinerator standards.	<ul style="list-style-type: none"> • No activity this period 	<ul style="list-style-type: none"> • Ongoing
	b. Newly proposed federal residual risk standards.	<ul style="list-style-type: none"> • No comments submitted this period 	<ul style="list-style-type: none"> • Ongoing
9. Identify grant and funding opportunities.			
a. Facilitate the identification, preparation and submission for transportation-related grants or other funding.	<ul style="list-style-type: none"> • Submitted 2013 Diesel Emissions Reduction Act (DERA) grant application, which was approved in June 	<ul style="list-style-type: none"> • Ongoing 	
10. Evaluate the need for the development of additional Source Category Permits to address air toxics issues.	<ul style="list-style-type: none"> • No new candidates identified during this period 	<ul style="list-style-type: none"> • Ongoing

2012 Air Toxics Strategic Plan – Mid-year *Detailed* Status Report

	6/30/12 Status	Expected Completion	
2012 Cont.	<p>Identify options for reducing air toxics in the environment</p> <p>11. Identify Delaware appropriate options under the multi-state Transportation & Climate Initiative (TCI) to reduce greenhouse gases and air toxics from the transportation sector.</p>	<ul style="list-style-type: none"> • TCI “Freight” workgroup <ul style="list-style-type: none"> • Commenced Phase 1 of freight study to identify regional freight flows and mitigation measures impacting emissions • Phase 2 will assess and quantify energy and environmental impacts directly related to freight flows in the region • TCI “Sustainable Communities” workgroup <ul style="list-style-type: none"> • Identified Metrics/Best Practices to quantify impacts of climate on land use planning/policies • Based on Metrics/Best Practices identified, commenced research to document how the 11 state programs support sustainable communities in the TCI region • TCI “Clean Vehicles & Fuels” workgroup <ul style="list-style-type: none"> • Commenced work with Clean Cities partners to develop electric vehicle (EV) outreach materials • The TCI “Innovation, Communication & Technologies” (ICT) workgroup <ul style="list-style-type: none"> • Commenced development of an “EV APP” for the ICT online “store” 	<ul style="list-style-type: none"> • 2H12 • 2013 <li style="text-align: center;">--- • 2H12 • 2H12 • 2H12
	12. Reevaluate the “Smoking Vehicle Reduction Program” options.		
	a. Complete baseline testing of smoking vehicles program.	• No activity during this period due to lack of funding	• On Hold
	b. Review baseline testing results and identify funding of program, if implementation is warranted.	• No review can be undertaken until completion of baseline testing	• On Hold

2012 Air Toxics Strategic Plan – Mid-year Detailed Status Report

	6/30/12 Status	Expected Completion
2012		
1. Facilitate the implementation of mobile source diesel emission reduction projects.		
a. Facilitate the implementation of diesel retrofits.		
i. Complete retrofits of DelDOT and DNREC trucks by 3/31.	<ul style="list-style-type: none"> • Determined that no DNREC trucks would be retrofitted in 2012 • Up to 50 DelDOT trucks will be equipped with diesel retrofits 	<p style="text-align: center;">- - -</p> <ul style="list-style-type: none"> • 9/30/12
b. Complete final Port of Wilmington engine replacement project by 6/30.	<ul style="list-style-type: none"> • Commenced final engine replacement 	<ul style="list-style-type: none"> • 9/30/12
c. Complete Wilmington Tug diesel engine repowering project by 6/30.	<ul style="list-style-type: none"> • Commenced engine repowering project 	<ul style="list-style-type: none"> • 9/30/12
d. Continue to support of the SmartWay Transport programs.		
i. Continue to monitor usage of kiosk service systems at diesel truck electrification sites.	<ul style="list-style-type: none"> • Received two quarterly usage reports from the site operators 	<ul style="list-style-type: none"> • Ongoing
ii. Continue to monitor and report on activities conducted in support of the SmartWay Transport programs, as appropriate.	<ul style="list-style-type: none"> • Continued to work with the Transportation & Climate Initiative on studying the multi-modal freight transit in the 11-State region 	<ul style="list-style-type: none"> • Ongoing
e. Continue to identify mobile source air toxics reduction or education programs, if mobile source-driven hot spots are found.	<ul style="list-style-type: none"> • No mobile source-driven hot spots were identified during this period 	<ul style="list-style-type: none"> • Ongoing
2. Insure continued or improved compliance of stationary sources.		
a. Continue to perform full compliance evaluations (FCEs) of facilities subject to major air toxics source standards (i.e. MACT and residual risk standards) in accordance with the applicable compliance monitoring plan.	<ul style="list-style-type: none"> • Completed 3 of 4 FCEs scheduled for 2012 	<ul style="list-style-type: none"> • 9/12
b. Perform full compliance evaluations (FCEs) of facilities subject to area source air toxics standards as follows:		
i. The three (3) chrome plating facilities, subject to 1138 Sect 6, covered during the 2012-13 timeframe.	<ul style="list-style-type: none"> • No activity to date 	<ul style="list-style-type: none"> • 12/12
ii. The one (1) halogenated solvent degreaser, subject to 1138 Sect 8, covered during the 2012-13 timeframe.	<ul style="list-style-type: none"> • No activity to date 	<ul style="list-style-type: none"> • 12/12
iii. The one (1) hazardous waste combustor, subject to Federal Sub EEE, covered during the 2012-13 timeframe.	<ul style="list-style-type: none"> • No activity to date 	<ul style="list-style-type: none"> • 9/13
iv. The three (3) municipal solid waste landfills, subject to Federal Sub AAAA, covered during the 2012-13 timeframe.	<ul style="list-style-type: none"> • Completed 2 of 3 FCEs scheduled for 2012 	<ul style="list-style-type: none"> • 9/12

Continued on next page

2012 Air Toxics Strategic Plan – Mid-year Detailed Status Report

	Implement appropriate actions to reduce the harm from exposure to air toxics	6/30/12 Status	Expected Completion
2012	2. Insure continued or improved compliance of stationary sources.		
Cont.	b. Perform full compliance evaluations (FCEs) of facilities subject to area source air toxics standards as follows:		
	v. The two (2) hospital ethylene oxide sterilization facilities, subject to 1138 Sect 9, covered during the 2012-13 timeframe.	• Completed the 1 scheduled FCE for 2012 on 2/7/12	• 9/13
	vi. The one (1) lead acid battery manufacturing plant, subject to 1138 Sect 11, covered during the 2012-13 timeframe.	• No activity to date	• 12/12
	vii. The one (1) source, subject to electric arc furnace standard (Federal Sub YYYYYY), covered during the 2012-13 timeframe.	• No activity to date	• 9/13
	viii. The two (2) plating and polishing operations, subject to 1138 Sect 10, covered during the 2012-13 timeframe.	• No activity to date	• 12/12
	ix. 40% or ~10 miscellaneous parts and products surface coating facilities, subject to 1138 Sect 14, covered during the 2012-13 timeframe; total potential population is ~25 facilities.	• Two (2) affected sources have been confirmed • Completed FCEs for the 2 confirmed affected sources	• Ongoing - - -
	x. The one (1) asphalt processing and asphalt roofing products manufacturing operation, subject to 1138 Sect 16, covered during the 2012-13 timeframe.	• Completed FCE on 4/17/12	- - -
NEW	xi. The one (1) secondary aluminum production operation, subject to 1138 Sect 12, covered during the 2012-13 timeframe.	• No activity to date	• 12/12
NEW	xii. The one (1) gasoline distribution operation, subject to Federal Sub BBBB BB, covered during the 2012-13 timeframe.	• Completed FCE on 4/27/12	- - -
NEW	xiii. The one (1) chemical manufacturing operation, subject to Federal Sub VVVVVV, covered during the 2012-13 timeframe.	• Completed FCE on 5/30/12	- - -
	c. By 9/12, perform compliance evaluations (CE) at area air toxics sources as follows:		
	i. 25% or ~20 perchloroethylene dry cleaning facilities subject to 1138 Sect 5; total population is ~ 72 facilities.	• Completed 14 compliance evaluations (or ~20% of current population) during this period	• 9/30/12
	ii. 25% or ~40 motor vehicle and mobile equipment surface coating facilities subject to 1124 Sect 11 and 1138 Sect 15; total population is ~ 157 facilities.	• Completed 78 compliance evaluations (or ~50% of current population) during this period	• 9/30/12

2012 Air Toxics Strategic Plan – Mid-year Detailed Status Report

	6/30/12 Status	Expected Completion	
Implement appropriate actions to reduce the harm from exposure to air toxics			
2012	2. Insure continued or improved compliance of stationary sources.		
Cont.	c. By 9/12, perform compliance evaluations (CE) at area air toxics sources as follows:		
	iii. 10% or ~60 gasoline delivery vessels (GDVs); total population is ~600 facilities.	<ul style="list-style-type: none"> • Performed perceptible leak tests on 51 GDVs during delivery transfers at gasoline stations (or on ~8.5% of the permitted GDVs) during this period • Continued to provide compliance assistance to GDV fleet owners in meeting annual testing and permitting requirements 	<ul style="list-style-type: none"> • 9/30/12 • Ongoing
	d. Track annual testing of Stage II vapor recovery system for gasoline dispensing facilities (GDFs) that are subject to vapor balancing requirements of Regulation 1124.	<ul style="list-style-type: none"> • Tracked the vapor recovery system testing of 168 GDFs (~48% of current GDFs) 	<ul style="list-style-type: none"> • Ongoing
	e. Conduct inspections at one third (1/3) of the regulated gasoline dispensing facilities (GDFs), subject to Regulation 1124, during 2012; total population is ~348 facilities.	<ul style="list-style-type: none"> • Conducted inspections at 53 regulated GDFs (~15% of regulated GDFs) 	<ul style="list-style-type: none"> • Ongoing
	f. Continue to implement the Asbestos Demolition/Renovation Program.		
	i. Perform site inspections at asbestos demolition/renovation sites.	<ul style="list-style-type: none"> • Completed 230 site inspections during this period 	<ul style="list-style-type: none"> • Ongoing
	ii. Monitor and maintain the Delaware Online Asbestos Notification System (DOANS).	<ul style="list-style-type: none"> • Continued to <ul style="list-style-type: none"> • Edit the active user database • Provide data entry for new notifications 	<ul style="list-style-type: none"> • Ongoing
	iii. Educate the public, certified contractors, and professional service firms on the proper removal and disposal of asbestos.	<ul style="list-style-type: none"> • Provided pertinent information in all three counties <ul style="list-style-type: none"> • State Service Centers • Appropriate county building (i.e. building permits; building code compliance, etc.) 	<ul style="list-style-type: none"> • Ongoing
	g. Take enforcement against gasoline dispensing facilities that are non-compliant with Stage 1 and Stage 2 requirements.	<ul style="list-style-type: none"> • Two enforcement actions were taken during this period 	<ul style="list-style-type: none"> • Ongoing
	h. Incorporate updated MACT and Residual Risk requirements in air permits.		
	i. Renew expiring Title V permits to incorporate newly promulgated MACT and Residual Risk standards, as needed.	<ul style="list-style-type: none"> • 4 permits renewed; none were air toxics related 	<ul style="list-style-type: none"> • Ongoing
	ii. Reopen Title V permits for cause to incorporate promulgated MACT and Residual Risk standards consistent with the requirements of Regulation No. 1130, as needed.	<ul style="list-style-type: none"> • No permits required reopening during this period 	<ul style="list-style-type: none"> • Ongoing

2012 Air Toxics Strategic Plan – Mid-year Detailed Status Report

	Implement appropriate actions to reduce the harm from exposure to air toxics	6/30/12 Status	Expected Completion
2012 Cont.	6. Coordinate Air Toxics Area Source Program development, if any area source standards are newly promulgated or revised.		
	a. Coordinate the identification of known or potentially affected sources, update the area source inventory and send inventory report to EPA by 9/12, if required.	• Completed identification of affected sources (& lead contacts) subject to prepared feed manufacturing (Sect 17) on 4/27/12	- - -
	b. Coordinate the development and incorporation of new and newly revised standards into the Area Source Program – Implementation Plan as part of the Air Toxics Strategic Planning process.	• No activity to date	• 10/31/12
	c. Update the Area Source Program – Implementation Plan by 10/12, if needed.	• No activity to date	• 10/31/12
	7. Submit delegation package for		
	a. Residual risk standard applicable to Halogenated Solvent Cleaning (Federal Sub T) by 1Q/12.	• Submitted on 3/23/12	- - -
	8. Adopt new and amend existing air toxics regulations for mobile and stationary sources.		
	a. Submit Start Action Notices for		
	i. Infrastructure standard applicable to General Provisions (Federal Sub A) by 6/30/12.	• No activity to date	• 3Q/12
	ii. Area source standard applicable to Industrial, Commercial & Institutional Boilers (Federal Sub JJJJJ) by 9/30/12.	• ON HOLD , pending EPA finalizing their “reconsideration” of the final rule (Oct. 2012)	• In 2013 ATSP
iii. Area source standard applicable to Fabricated Metal Products Manufacturing (Federal Sub XXXXXX) by 12/31/12.	• The timing of this adoption will be reevaluated as part of the 2013 ATSP development in Oct. 2012, greater interest in area source gasoline terminals	• In 2013 ATSP	
iv. Adopting a new non-road anti-idling regulation similar to the recently approved OTC model rule by March 31.	• OTC approved the non-road anti-idling model rule on 5/24/12 • Revised path forward to be developed	- - - • 2013 ATSP	
NEW	v. Repealing the hospital, medical, and infectious waste incinerator standard (Section 29) of Regulation 1120.	• Submitted on 5/15/12	- - -
	b. Complete stringency determinations for		
	i. Area standard applicable to Prepared Feeds Manufacturing (Federal Sub DDDDDDD) by 3Q/12.	• Completed the stringency determination comparison of the proposed language vs. the federal Sub 7Ds on 6/29/12	- - -
	ii. Infrastructure standard applicable to General Provisions (Federal Sub A) by 4Q/12.	• No activity to date	• 1Q/13

2012 Air Toxics Strategic Plan – Mid-year Detailed Status Report

	Implement appropriate actions to reduce the harm from exposure to air toxics	6/30/12 Status	Expected Completion
2012 Cont.	8. Adopt new and amend existing air toxics regulations for mobile and stationary sources.		
	c. Finalize adoption of a new non-road anti-idling regulation similar to the recently approved OTC model rule by December 31.	• Revised path forward to be developed	• 2013 ATSP
NEW	d. Finalize the adoption of area source standards for		
	i. Area standard applicable to Prepared Feeds Manufacturing (Federal Sub DDDDDDD) by 4Q/12.	• Public workshop conducted on 6/7/12 • Finalized the public workshop response document and sent out to the workshop participants on 6/28/12 • Submitted the proposal regulation package for inclusion in the DE Registrar on 6/20/12	• 4Q/12
	ii. Repealing the hospital, medical, & infectious waste incinerator standard (Section 29) of Regulation 1120.	• Completed the proposed regulation package for inclusion in the DE Registrar on 6/28/12	• 4Q/12
	e. Upon initial proposal of CAL-LEV III and the federal TIER III, evaluate the regulatory options or other paths forward for implementation of automobile low emission standards in Delaware.	• EPA has yet to finalize their TIER III rule	• Unknown
	f. Reevaluate and develop path forward for amending Regulation 1131, which would expand the low enhanced inspection and maintenance (I/M) program statewide.	• Continued to evaluate alternatives for moving forward	• Ongoing
	g. Revise existing and develop new control strategies, as needed.		
	i. Complete review and submit a negative evaluation declaration letter regarding existing sewage sludge incinerators under Federal Subpart MMMM by 2/28/12.	• Submitted negative declaration and requested withdrawal of the HMIWI plan on 2/14/12	---
	ii. Assess path forward for the following MACT standards.		
	1. Utilities MACT Standard (Federal Sub UUUUU), if finalized.	• Utility MACT promulgated on 2/16/12; no activity to date	• Unknown
	2. Industrial, Commercial & Institutional Boiler MACT Standard (Federal Sub DDDDD), if finalized.	• ON HOLD , 2011 proposal are not expected to be final until Fall 2012	• In 2013 ATSP
3. Commercial and Industrial Solid Waste Incinerator Standard (Federal Sub CCCC), if finalized.	• ON HOLD , 2011 proposal are not expected to be final until Fall 2012	• In 2013 ATSP	
iii. Update path forward for area source Prepared Feeds Manufacturing GACT Standard (Federal Sub DDDDDDD).	• Completed on 4/20/12	---

2012 Air Toxics Strategic Plan – Mid-year Detailed Status Report

Implement appropriate actions to reduce the harm from exposure to air toxics		6/30/12 Status	Expected Completion
2012 Cont.	11. Continue to provide air toxics-related support to State through . . .		
	c. Advising on likely future trends and actions.	<ul style="list-style-type: none"> • Reported on EPA’s lack of funding for future National-Scale Air Toxics Assessment activities 	• Ongoing
	d. Providing technical support, as needed.	<ul style="list-style-type: none"> • Provide assistance on completion of the Federal Notice of Compliance Status to Perdue Farms • Provided insights on the emission levels associated with lightering of gasoline & other refined products (to E&C) • Provided E&C technical information for the startup, shutdown and malfunction requirements renewal of the BASF Title V permit on 6/27/12 	• Ongoing

2012 Air Toxics Strategic Plan – Mid-year Detailed Status Report

Evaluate the effectiveness of the actions taken to reduce harm from exposure to air toxics		6/30/12 Status	Expected Completion
2012	1. Monitor, pending network review to meet changing resources, for Carbonyls and metals at one (1) air toxic monitoring station and VOCs at two (2) air toxic monitoring stations and report status of monitoring activities to EPA R3, as appropriate.	<ul style="list-style-type: none"> • Six months of sampling successfully completed both monitoring stations 	• Ongoing
	2. Track the emissions of air toxics of concern from significant sources contributing to elevated risks of exposure to air toxics, as needed.	<ul style="list-style-type: none"> • No requests for information for air toxics of concern during this period 	• Ongoing
	3. By September, complete a self-assessment of major stationary source air toxics reduction and outreach programs undertaken or in progress to determine effectiveness, impacts, and improvements. Incorporate results into the respective programs.	<ul style="list-style-type: none"> • Identified need for Section 14 (Federal Sub 6Bs) training to improve staffs effectiveness in implementation for the standard 	• 10/12
	4. Evaluate and revise anti-idling outreach programs for schools, as needed.	<ul style="list-style-type: none"> • Completed winter/spring school bus anti-idling audits <ul style="list-style-type: none"> • Found high compliance levels • No revision to anti-idling program needed 	• Ongoing

2012 Air Toxics Strategic Plan – Mid-year Detailed Status Report

	Air toxics resource development	6/30/12 Status	Expected Completion
2012	1. Evaluate available training and encourage broader participation in risk-related training.		
	a. Continue to identify air toxics related training, workshops and forums; encourage participation, when appropriate.	<ul style="list-style-type: none"> • No <u>new</u> EPA or regional air toxics training opportunities identified during this period • An internal air toxics training program covering Section 14 (Surface coating of misc. parts and products) is under preparation 	<ul style="list-style-type: none"> • Ongoing • 4Q12
	b. Participate in national and EPA air dispersion modeling programs or training specific to air toxics characterization.	<ul style="list-style-type: none"> • No air dispersion modeling programs or training offered during this period 	<ul style="list-style-type: none"> • Ongoing
	c. Evaluate the need for air toxics-related training for staff and present, as needed.	<ul style="list-style-type: none"> • Identified the need for training staff on Section 14 (Federal Sub 6Hs) applicability and other regulatory differences versus VOC reasonably available control technology requirements • Need for area source applicability training (Item #10) was identified in 2011 	<ul style="list-style-type: none"> • 10/12 • 2013
	d. Determine if recently promulgated air toxics standards (MACT, Residual Risk or Area Source GACT) should be presented to staff.	<ul style="list-style-type: none"> • No new promulgation during this period 	<ul style="list-style-type: none"> • Ongoing
	2. Improve staff's ability to identify affected area sources by providing training on applicability requirements for air toxics area source standards adopted under 112(k).		
	a. Review and finalize the appropriate format for a staff training program on the applicability requirements of air toxics area source standards by 3/31/12.	<ul style="list-style-type: none"> • ON HOLD; pending development of the training program 	<ul style="list-style-type: none"> • 2013
	b. Develop an air toxics educational program (presentation and educational materials) that facilitates the interpretation of the applicability requirements of area source standards adopted by EPA under Section 112(k) by 5/31/12.	<ul style="list-style-type: none"> • No activity since initial work in 2011 (low priority) 	<ul style="list-style-type: none"> • Unknown
	c. Complete area source applicability training program by 6/30/12.	<ul style="list-style-type: none"> • ON HOLD; pending development of the training program 	<ul style="list-style-type: none"> • 2013
	3. Continue to assess and pursue implementation of a process for multi-agency sharing of source information for new and existing sources, including gasoline delivery vessels.	<ul style="list-style-type: none"> • Partially completed implementation; gasoline delivery vessels data now accessible in DENs 	<ul style="list-style-type: none"> • Ongoing
