

**DIVISION OF AIR & WASTE MANAGEMENT
AIR QUALITY MANAGEMENT SECTION
MAY 2010**

ENGINEERING & COMPLIANCE: TO SUPPORT THE SECTION MISSION BY CONDUCTING A PERMITTING, COMPLIANCE AND INSPECTION PROGRAM THAT PROMOTES ECONOMICAL COMPLIANCE FLEXIBILITY, WHILE RESPONDING EFFECTIVELY TO THE NEEDS AND CONCERNS OF THE PUBLIC, BUSINESSES, AND OTHER AGENCIES.

- Implement the State of Delaware air quality regulations and the Clean Air Act (CAA), as amended;
- Assist other Section staff in the attainment and maintenance of Ambient Air Quality Standards with special emphasis on the control of ozone and fine particulate matter (PM_{2.5}) precursors;
- Protect Delaware citizens from the potential impact of hazardous air pollutants;
- Reduce emissions that contribute to acid rain;
- Assist other Branches, Sections, and Agencies across media to protect public health, welfare, and the environment;
- Work with communities and businesses to provide information, address air quality concerns, and implement solutions;
- Influence national and regional air quality policy;
- Perform administrative responsibilities.
