**ATTENTION: Jeff Bradley
Chief Executive Officer**

Dear Mr. Bradley:

The Department has reviewed Claymont Steel's revised December 14, 2007 submittal of the Slag Dust Fugitive Dust Emissions Control Study and Schedule. This submittal addresses the deficiencies identified in the Department's November 30, 2007 letter by providing the levels of detail requested, including progress tracking, implementation of several control measures earlier than those proposed in Claymont Steel's November 13, 2007 submittal, and reflects our discussions held in our meeting on December 6, 2007. For these reasons, the revised implementation schedule is now acceptable to the Department. Therefore, pursuant to Paragraph 9 of the Notice of Conciliation and Secretary's Order No. 2006-A-0048, dated October 23, 2006, the Department is adopting the revised implementation schedule submitted on December 14, 2007 and Claymont Steel is hereby notified to proceed with implementing this plan according to the schedule.

Should you have any questions, please feel free to contact Bradley Klotz of my staff at (302) 323-4542.

Sincerely,

Paul E. Foster, P.E.
Program Manager
Engineering & Compliance Branch
