**WHS - SITE INVESTIGATION AND RESTORATION SECTION** is responsible for the identification, evaluation and remediation of sites in Delaware that have had past releases of hazardous substances. The section manages the contaminated sites under three major programs in accordance with the Hazardous Substance Cleanup Act (HSCA). The three programs are the **Brownfields Development Program, the Voluntary Cleanup Program (VCP) and the HSCA Enforcement Program** (for sites requiring enforcement action).

**The Brownfields Development Program** encourages the cleanup and redevelopment of vacant, abandoned or underutilized properties, which may be contaminated. A party seeking to develop such a property negotiates with SIRS for a **Brownfields Development Agreement (BDA)** to perform an investigation and, if necessary, a remedial action or remedy, for the purpose of addressing the risks posed by past releases of hazardous substances at these sites. However, a BDA is only available to parties that are not current site owners. The **Voluntary Cleanup Program (VCP) Agreement** is available to site owners, who want to clean up their sites and are already liable as a potentially responsible party for the site.

**NOTIFICATION OF NEGOTIATIONS AND PUBLIC COMMENT FOR A BROWNFIELD DEVELOPMENT AGREEMENT WITH LIONCAP, LLC** regarding the 0 Red Lion Road Site (Site), located at 0 Red Lion Road in New Castle and 0 Governor Road in Bear. Identified by New Castle County as tax parcel number 1-0053.00-030 and tax parcel number 12-002.00-0011 in Bear, the 127.63 acre Site may have had a release of hazardous substances as a result of being located near the Tybouts Corner Landfill. The public comment period began on Dec. 30, 2015 and will close on **Jan. 19**. Please submit written comments to the DNREC-SIRS Project Manager, Morgan Price at DNREC-SIRS, 391 Lukens Drive, New Castle, DE 19720.
