MAGELLAN TERMINALS HOLDINGS, L.P., having a facility at 1050 Christina Avenue, Wilmington, has requested federally enforceable 7 DE Admin. Code 1102 construction permits (APC-2016/0008, APC-2016/0009, APC-2016/0010, and APC-2016/0011) for modifying existing storage vessels Tank-21, 22 & 29 to allow additional liquids be stored and to modify the existing truck loading rack to increase gasoline loading. The permits

will limit combined emissions from modifications of Tank-21, 22 & 29 to not exceed 14.19 TPY of VOCs, 0.21 TPY of PM, 0.02 TPY of SO_x, 5.01 TPY of NO_x and 7.43 TPY of CO. The VOC emissions from modification of the truck loading rack will remain unchanged. A public hearing concerning the permitting action will not be held unless our agency Secretary receives a request for such hearing by **December 15**. For additional information, visit:

<http://www.dnrec.delaware.gov/Lists/Public%20Notices/DispForm.aspx?ID=3008&Source=http%3A%2F%2Fwww%2Ednrec%2Edelaware%2Egov%2FLists%2FPublic%2520Notices%2FAllItems%2Easpx&ContentTypeld=0x010034FD6D348B0CF04392485E93FC15AB3A>

FMC HEALTH AND NUTRITION, having a facility at 1301 Ogletown Road, Newark, has submitted a request for significant permit modification pursuant to 7 DE Admin. Code 1130, Section 7 for operating Permit: AQM-003/00051 (Renewal 3) (Revision 2). Based on the data and certifications contained in the application, the Division of Air Quality concludes that the applicant meets all applicable requirements promulgated by the Environmental Protection Agency (EPA) and the Department of Natural Resources and Environmental Control (DNREC). Therefore a "draft/proposed" significant permit modification has been prepared. A public hearing concerning the permitting action will not be held unless our agency Secretary receives a request for such hearing by **December 22**. A request for a hearing shall be in writing and must show a familiarity with the application and a reasoned statement of the permit renewal's probable impact. For additional information visit:

WHS - SITE INVESTIGATION AND RESTORATION SECTION is responsible for the identification, evaluation and remediation of sites in Delaware that have had past releases of hazardous substances. The section manages the contaminated sites under three major programs in accordance with the Hazardous Substance Cleanup Act (HSCA). The three programs are the **Brownfields Development Program, the Voluntary Cleanup Program (VCP) and the HSCA Enforcement Program** (for sites requiring enforcement action).

The Brownfields Development Program encourages the cleanup and redevelopment of vacant, abandoned or underutilized properties, which may be contaminated. A party seeking to develop such a property negotiates with SIRS for a **Brownfields Development Agreement (BDA)** to perform an investigation and, if necessary, a remedial action or remedy, for the purpose of addressing the risks posed by past releases of hazardous substances at these sites. However, a BDA is only available to parties that are not current site owners. The **Voluntary Cleanup Program (VCP) Agreement** is available to site owners, who want to clean up their sites and are already liable as a potentially responsible party for the site.
