UPCOMING AIR, WASTE, & WATER-RELATED HEARINGS, MEETINGS, & EVENTS

DELAWARES ENVIRONMENTAL MITIGATION PLAN- This meeting will be held on **March 23** beginning at 6pm at 100 W Water St, Dover 19904. On October 25, 2016, a Partial Consent Decree was finalized between the United States Justice Department, the Volkswagen (VW) Corporation, and its subsidiaries regarding the installation and use of emissions testing defeat devices in over 500,000 vehicles sold and operated in the United States beginning in 2009. Use of these defeat devices has increased air emissions of nitrogen oxide (NOX), resulting in adverse impacts to air quality and violating the federal Clean Air Act. In response to the Settlement, the Division of Air Quality has developed a proposed mitigation plan to accept and distribute these funds to eligible projects. The proposed plan is focused on the eligible types of mitigation actions that can produce the greatest air quality benefit in terms of NOX emission reductions, reduce public exposure, and promote clean vehicle technologies. The plan is expected to have a significant positive impact on Delaware; DAQ is requesting input from the public to help develop a final mitigation plan prior to taking any formal action. Public comments are being accepted until **April 3**. Written comments may be sent to VW_Mitigation_Plan@state.de.us or mailed to: Division of Air Quality, State Street Commons, 100 W. Water Street, Suite 6A, Dover, 19904. For more information visit: <https://publicmeetings.delaware.gov/Meeting/51374>

NOTICE OF PUBLIC HEARING. The Department will conduct a public hearing on a proposed State Plan and amendment to existing Regulation No. 1120 New Source Performance Standards to add a new standard (Section 30) that is applicable to municipal solid waste landfills (MSWLs). On August 29, 2016, the EPA promulgated two regulations applicable to MSWLs. The EPA promulgated 40 CFR Part 60 Subpart XXX, which regulates the emissions from new (i.e., newly constructed, reconstructed, or modified) MSWLs and 40 CFR Part 60 Subpart Cf, which requires States to regulate emissions from existing MSWLs. The purpose of these two federal regulations is to reduce volatile organic compounds (VOCs) and methane emissions from MSWLs. DNREC is proposing to incorporate the federal new MSWL requirements in Subpart XXX by reference as Section 30 of Regulation No. 1120. To satisfy the existing MSWL requirements of Subpart Cf, the applicability of Section 30 will be expanded to include both existing and new MSWLs. Once finalized, Section 30 and the State Plan will be submitted to the EPA for approval. There are three MSWLs in Delaware; all are operated by the Delaware Solid Waste Authority and will be subject to the State Plan and amended regulation. The public hearing on this proposed State Plan and amendment of Regulation No. 1120 will be held on April 24 beginning at 6:00PM in the Department's office located at 100 W. Water Street, Suite 6A, Dover, The proposed amendment and the State Plan are available for public review (1) at the Department's office at 715 Grantham Lane in New Castle; (2) at the Department's office at 100 W. Water Street, Suite 6A in Dover; (3) in the statewide Public Meeting Calendar notice for this hearing at <https://publicmeetings.delaware.gov/>, and (4) in the April 1 edition of the Delaware Register of Regulations on and after April 1 at <http://regulations.delaware.gov/services/register.shtml>. For additional information or any appointment to inspect the proposed amendment and State Plan, please contact either Jim Snead at the New Castle office at (302) 323-4542 or jsnead@state.de.us or Ron Amirikian at the Dover office at (302) 739-9402 or ronald.amirikian@state.de.us. Statements and testimony may be presented either orally or in writing at the April 24 public hearing. If you are unable to attend or wish to submit your comments in advance of the public hearing, please send your comments to the address below. Interested parties may also submit written comments to the Department, to the same address below, up until the end of the comment period, which will extend through **May 9**, unless a longer comment period is designated by the hearing officer at the public hearing. WHS - SITE INVESTIGATION AND RESTORATION SECTION (SIRS) is responsible for the identification, evaluation, and remediation of sites in Delaware that have had past releases of hazardous substances. The section manages the contaminated sites under three major programs in accordance with the Hazardous Substance Cleanup Act (HSCA). The three programs are the **Brownfields Development Program, the Voluntary Cleanup Program (VCP), and the HSCA Enforcement Program** (for sites requiring enforcement action).

The Brownfields Development Program encourages the cleanup and redevelopment of vacant, abandoned, or underutilized properties, which may be contaminated. A party seeking to develop such a property negotiates with SIRS for a **Brownfields Development Agreement (BDA)** to perform an investigation and, if necessary, a remedial action or remedy, for the purpose of addressing the risks posed by past releases of hazardous substances at these sites. However, a BDA is only available to parties that are not current site owners. The **Voluntary Cleanup Program (VCP) Agreement** is available to site owners who want to clean up their sites and are already liable as a potentially responsible party for the site.

NOTIFICATION OF NEGOTIATIONS FOR A BROWNFIELD DEVELOPMENT AGREEMENT FOR THE PB WILMINGTON RF 228 SITE (DE-1640).

The Department is negotiating a BDA with PB Wilmington LLC regarding the PB Wilmington RF 228 Site (Site) located at 516 and 518 A Street and a portion of 220 A Street in Wilmington. FINAL PLAN OF REMEDIAL ACTION FOR THE FORMER AVON PRODUCTS SITE (DE-1595). The Department has adopted a plan regarding the clean-up of the Former Avon Products Site located in Newark. The 45.51 acre Site, once used by Avon as a warehouse and distribution facility, required restricting groundwater use at the Site, implementing a Contaminated Materials Management Plan, and restricting Operable Unit 2 of the Site to non-residential use only. The public may appeal this Final Plan until **March 30**. For additional information, please contact Stephanie Gordon, Project Manager at (302) 395-2600 or via email at stephanie.gordon@state.de.us; or visit:

PROPOSED PLAN OF REMEDIAL ACTION FOR THE RIVERWALK APARTMENTS SITE (DE-1641). The Department invites public comment on a proposal to clean up the Riverwalk Apartments Site located at 475 West Seventh Street in New Castle. The approximately 4.1-acre Site is currently a vacant lot. The Site has mainly been used for storage and parking. Exposure to soil does not pose an unacceptable increased risk to site users. Groundwater samples contained elevated concentrations of select metals and two volatile organic compounds identified as having the potential to cause an unacceptable risk to site users; therefore, a remedial action is warranted to eliminate potential exposure of future residents and outdoor workers to groundwater. The comment period ends on **April 3**. For additional information, please contact Lindsay Hall, Project Manager, at (302)395-2600 or via e-mail at Lindsay.Hall@state.de.us; or visit: <http://www.dnrec.delaware.gov/Lists/Public%20Notices/DispForm.aspx?ID=3676&Source=http%3A%2F%2Fwww%2Ednrec%2Edelaware%2Egov%2FLists%2FPublic%2520Notices%2FAllItems%2Easpx&ContentTypeld=0x010034FD6D348B0CF04392485E93FC15AB3A>
