WHS - SITE INVESTIGATION AND RESTORATION SECTION is responsible for the identification, evaluation and remediation of sites in Delaware that have had past releases of hazardous substances. The section manages the contaminated sites under three major programs in accordance with the Hazardous Substance Cleanup Act (HSCA). The three programs are the **Brownfields Development Program, the Voluntary Cleanup Program (VCP) and the HSCA Enforcement Program** (for sites requiring enforcement action).

The Brownfields Development Program encourages the cleanup and redevelopment of vacant, abandoned or underutilized properties, which may be contaminated. A party seeking to develop such a property negotiates with SIRS for a **Brownfields Development Agreement (BDA)** to perform an investigation and, if necessary, a remedial action or remedy, for the purpose of addressing the risks posed by past releases of hazardous substances at these sites. However, a BDA is only available to parties that are not current site owners. The **Voluntary Cleanup Program (VCP) Agreement** is available to site owners, who want to clean up their sites and are already liable as a potentially responsible party for the site.

NOTIFICATION OF NEGOTIATIONS FOR A BROWNFIELDS DEVELOPMENT AGREEMENT FOR THE 735 B SOUTH MARKET STREET (DE-1632) - the Site Investigation and Restoration Section (SIRS) is negotiating a BDA with James Court Associates, LLC regarding the 735 B South Market Street Site (Site), located at 735 B South Market Street in Wilmington. Identified by New Castle County as tax parcel number 10-001.00-002, the 2.11 acre Site may have had a release of hazardous substances as a result of historic fill and slag from the former Claymont Steel facility. This notice expires on **March 18**. For additional information contact the SIRS Project Manager, Eileen Capitolli at (302) 395-2600; or visit: <http://www.dnrec.delaware.gov/Lists/Public%20Notices/DispForm.aspx?ID=3150&Source=http%3A%2F%2Fwww%2Ednrec%2Edelaware%2Egov%2FLists%2FPublic%2520Notices%2FAllItems%2Easpx&ContentTypeld=0x010034FD6D348B0CF04392485E93FC15AB3A>
