NOTICE IS HEREBY GIVEN THAT DUPONT STINE-HASKELL RESEARCH CENTER having a facility at 1090 Elkton Road in Newark has submitted a request for permit renewal pursuant to 7 DE Admin. Code 1130, Section 7 for operating Permit: AQM-003/00279 (Renewal 2) (Revision 2). Based on the data and certifications contained in the application, the Division of Air Quality concludes that the applicant meets all applicable requirements promulgated by the Environmental Protection Agency (EPA) and the Department of Natural Resources and Environmental Control (DNREC). Therefore a "draft/proposed" permit renewal has been prepared. This "draft/proposed" permit renewal deletes three emission units that have been removed from service, converts one emission unit to an insignificant activity because of emission reductions, and provides regulatory updates. The "draft/proposed" permit renewal is being submitted to EPA for concurrent processing. If there are no significant comments, the "draft/proposed" permit renewal will be issued as a final permit after expiration of the EPA review period. A public hearing concerning the permitting action will not be held our agency Secretary receives a request for such hearing by **August 25**. A request for a hearing shall be in writing and must show a familiarity with the application and a reasoned statement of the permit renewal's probable impact. For additional information visit:

NOTICE IS HEREBY GIVEN THAT DELAWARE SOLID WASTE AUTHORITY (DSWA) – CHERRY ISLAND LANDFILL has submitted an application, pursuant to 7 DE Admin. Code 1102, Section 2.1, 11.2.9, and 12.3 for the construction of one (1) 4500 SCFM Perennial Energy, Inc. landfill gas fired flare at 1706 E. 12th Street in Wilmington. DSWA requests a limit for NOX and SO2. These limits are necessary to restrict DSWA Cherry Island Landfill's potential to emit air pollutants, and the limit will be enforceable by the EPA and the state. Total estimated emissions from the facility are 23.9 tons per year NOX, 58.5 tons per year SO2, 79.6 tons per year CO, 2.1 tons per year NMOC, 6.6 tons per year PM, and 0.08 ton per year HAPs. A public hearing concerning the permitting action will not be held unless our agency receives a request for such hearing by **September 1**. A request for a hearing shall be in writing and must show a familiarity with the application and a reasoned statement of the permit's probable impact. For additional information visit:

The Brownfields Development Program encourages the cleanup and redevelopment of vacant, abandoned or underutilized properties, which may be contaminated. A party seeking to develop such a property negotiates with SIRS for a **Brownfields Development Agreement (BDA)** to perform an investigation and, if necessary, a remedial action or remedy, for the purpose of addressing the risks posed by past releases of hazardous substances at these sites. However, a BDA is only available to parties that are not current site owners. The **Voluntary Cleanup Program (VCP) Agreement** is available to site owners, who want to clean up their sites and are already liable as a potentially responsible party for the site.
