SECRETARY'S ORDERS

Secretary's Order No. 2018-WH-0012

RE: Notice of Administrative Penalty Assessment for Chemours Company FC, LLC @ Sardo & Sons Warehouse ("Respondent" or "Chemours") in violation of 7 Del.C. Chapters 60 and 63 and 7 DE Admin. Code 1302, Delaware's Regulations Governing Hazardous Waste ("DRGHW"), issued pursuant to 7 Del.C. §6005(b)(3)

Secretary's Order No. 2018-W-0013

RE: Notice of Administrative Penalty Assessment for Kent County Levy Court for violations of 7 Del. C. § 6003, 7 Del. Admin. C. § 7201 et seq., Delaware Regulations Governing the Control of Water Pollution, hereinafter referred to as the "Water Pollution Regulations," as well as conditions of its National Pollutant Discharge Elimination System (NPDES) Permit No. DE 0020338

Secretary's Order No. 2018-A-0017

RE: Notice of Administrative Penalty Assessment for Rohm and Haas Electronic Materials CMP, Inc. for violation of its air quality permit pursuant to 7 Del. C. §6005(b)(3)

Secretary's Order No. 2018-W-0048

RE: Application of Chesapeake Environmental Services, LLC, to amend its existing Non-Hazardous Liquid Waste Transporters Permit No. DE WH-213 to include the transporting of sludge from a two (2) million-gallon lagoon at Allen Harim's Millsboro facility to Allen Harim's Harbeson facility. Hearing officer's report and technical response memorandum included

Secretary's Order No. 2018-W-0049

RE: Application of Mountaire Farms of Delaware, Inc., for renewal of its existing Non-Hazardous Liquid Waste Transporters Permit (DE OH-091). Hearing officer's report and technical response memorandum included

Secretary's Order No. 2018-W-0050

RE: Application of Denali Water Solutions to amend its existing Non-Hazardous Liquid Waste Transporters Permit No. DE OH-601 to include the transporting of industrial process wastewater from a de-boning operation at Allen Harim's Millsboro facility to Allen Harim's Harbeson facility. Hearing officer's report and technical response memorandum included

DIVISION OF AIR QUALITY

OPT-IN! THE DELAWARE DIVISION OF AIR QUALITY (DAQ) is committed to working with citizens to continuously optimize Delaware's air quality and protect public health, welfare, and the environment. To determine that the DAQ is meeting the air quality needs of the citizens across the state, we encourage you to participate in our opt-in list. In the future you will receive surveys that will allow us to analyze our performance. You can access the opt-in list by clicking:

https://survey.co1.qualtrics.com/jfe/form/SV_1RGZGUYt8fSugkE

AIR QUALITY PERMITTING PROGRAM – Notice has been given that the facilities listed below have submitted applications for air quality management permits. The applications, the “draft/proposed” permits, all materials that the applicant has submitted (other than those granted confidential treatment under DNREC rules), and a copy of summary of other materials, if any, considered in preparing the “draft/proposed” permit, may be inspected at the offices of the Division of Air Quality, 100 W. Water Street, Suite 6A, Dover, 19904. **All comments and public hearing requests** should be mailed to the following address: DIVISION OF AIR QUALITY, 100 W. Water Street, Suite 6A, Dover 19904. To submit comments, for additional information, or for an appointment to inspect the application, please contact Tracy Mattson at (302) 739-9402.

Title V Permit Renewal Application

Notice is hereby given that HandyTube Corporation having a facility at 124 Vepco Boulevard, Camden, Delaware, has submitted a request for permit renewal pursuant to 7 DE Admin. Code 1130, Section 7 for operating permit: AQM-001/00099. Based on the data and certifications contained in the application, the Division of Air Quality concludes that the applicant meets all applicable requirements promulgated by the Environmental Protection Agency (EPA) and the Department of Natural Resources and Environmental Control (DNREC). Therefore a “draft/proposed” permit renewal has been prepared. This “draft/proposed” permit renewal has only administrative changes.

The application, the “draft/proposed” permit renewal, (AQM-001/00099 (Renewal 4), all materials that the applicant has submitted (other than those granted confidential treatment under DNREC rules), and a copy of summary of other materials, if any,

considered in preparing the "draft/proposed" permit renewal may be inspected at the offices of the Division of Air Quality, State Street Commons, 100 W. Water Street, Suite 6A, Dover, Delaware and 715 Grantham Lane, New Castle, Delaware. To submit comments, for additional information or for an appointment to inspect the application, please contact Tracy Mattson at the Dover Office at 739-9402.

The "draft/proposed" permit renewal is being submitted to EPA for concurrent processing. If there are no significant comments, the "draft/proposed" permit renewal will be issued as a final permit after expiration of the EPA review period.

A public hearing concerning the permitting action will not be held unless the Secretary of the Department of Natural Resources and Environmental Control receives a request for such hearing within thirty (30) days from the date of this notice, ending **October 2**. A request for a hearing shall be in writing and must show a familiarity with the application and a reasoned statement of the permit renewal's probable impact.

DIVISION OF AIR QUALITY, STATE STREET COMMONS, 100 W. WATER STREET, SUITE 6A DOVER, DE 19904, (302) 739-9402. For more information

LEGAL NOTICE - TITLE V SYNTHETIC MINOR PERMIT APPLICATIONS

Notice is hereby given that Allan Myers Delaware, Inc. has submitted an application, pursuant to 7 DE Admin. Code 1102, Section 2.1, 11.2.9, and 12.3 for construction of a portable Recycled Asphalt Pavement (RAP) sizing plant at 1230 Railcar Avenue, Wilmington, Delaware. The plant consists of the following diesel engine powered portable equipment: a 73 HP (Tier 3) stacker conveyor, a 350 HP (Tier 4) impact crusher and a 110 HP (Tier 4) screener with associated transfer conveyors.

Allan Myers Delaware, Inc. requests limits for operating hours and fuel usage. These limits are necessary to restrict Allan Myers Delaware, Inc.'s potential to emit air pollutants, and the limits will be enforceable by the EPA and state. Total estimated emissions from the RAP sizing plant are 0.25 ton per year (TPY) of Nitrogen Oxides (NOX), 1.05 TPY of Carbon Monoxide (CO), 0.05 TPY of Non-Methane Hydrocarbons (NMHC), 0.002 TPY of Sulfur Dioxide (SO₂), 4.34 TPY of Particulate Matter (PM), and 1.60 TPY of Particulate Matter (PM₁₀).

Allan Myers Delaware, Inc. operates three facilities under permits: (APC-2016/0026-OPERATION (NSPS)(SM)) Wilmington, (APC-2012/0154-OPERATION (NSPS) (MNSR)(SM)) Dover and (APC-1997/0494-OPERATION (MNSR)(NSPS)(SM)) Georgetown. Operational limits for the portable equipment will be applied at each location as well as across all sites.

The application, the "draft" permit (APC-2018/0032-CONSTRUCTION (NSPS)(FE)), all materials that the applicant has submitted (other than those granted confidential treatment under DNREC rules), and a copy or summary of other materials, if any, considered in preparing the "draft" permit may be inspected at the office of the Division of Air Quality, State Street Commons, 100 W. Water Street, Suite 6A, Dover, DE 19904. To submit comments, for additional information or for an appointment to inspect the public file, please contact Tracy Mattson in the Dover office at (302) 739-9402.

A public hearing concerning the permitting action will not be held unless the Secretary of the Department of Natural Resources and Environmental Control receives a request for such hearing within thirty (30) days from the date of this notice, ending **October 2**. A request for a hearing shall be in writing and must show a familiarity with the application and a reasoned statement of the permit's probable impact.

Title V Permit Renewal Applications

Notice is hereby given that 1007 Market Condominium Association having a facility at 1007 North Market Street, in Wilmington, Delaware, has submitted a request for permit renewal pursuant to 7 DE Admin. Code 1130, Section 7 (AQM-003/00049(Renewal 4)). Based on the data and certifications contained in the application, the Division of Air Quality concludes that the applicant meets all applicable requirements promulgated by the Environmental Protection Agency (EPA) and the Department of Natural Resources and Environmental Control (DNREC). Therefore a "draft/proposed" permit renewal has been prepared. This "draft/proposed" permit renewal updates applicable requirements. The application, the "draft/proposed" permit renewal (AQM-003/00049(Renewal 4)) all materials that the applicant has submitted (other than those granted confidential treatment under DNREC rules), and a copy of summary of other materials, if any, considered in preparing the "draft/proposed" permit renewal may be inspected at the offices of the Division of Air Quality, State Street Commons, 100 W. Water Street, Suite 6A, Dover, Delaware and 715 Grantham Lane, New Castle, Delaware. To submit comments, for additional information or for an appointment to inspect the application, please contact Tracy Mattson at the Dover Office at 739-9402.

The "draft/proposed" permit renewal is being submitted to EPA for concurrent processing. If there are no significant comments, the "draft/proposed" permit renewal will be issued as a final permit after expiration of the EPA review period.

A public hearing concerning the permitting action will not be held unless the Secretary of the Department of Natural Resources and Environmental Control receives a request for such hearing within thirty (30) days from the date of this notice, ending **October 16**. A request for a hearing shall be in writing and must show a familiarity with the application and a reasoned statement of the permit renewal's probable impact.

LEGAL NOTICE - TITLE V SYNTHETIC MINOR PERMIT APPLICATIONS

Notice is hereby given that Delaware Health and Social Services, Herman Holloway Campus (DHSS) has submitted an application, pursuant to 7 DE Admin. Code 1102, Section 2.1, 11.2.9, and 12.3 for a construction permit at 1901 N. DuPont Highway, New Castle, Delaware. The permit will consolidate previously issued permit terms and conditions and requirements for various emission units into a facility-wide permit.

DHSS requests a limit for fuel usage. These limits are necessary to restrict DHSS potential to emit air pollutants, and the limit will be enforceable by the EPA and the state. Total estimated emissions from the facility are: 14.50 tons/year of NO_x, 11.84 tons/year of CO, 1.12 tons/year of PM, 1.55 tons/year of VOCs, and 0.15 tons/year of SO₂.

The application, the "draft" permit: APC-2019/0003-CONSTRUCTION (NSPS) (SM), all materials that the applicant has submitted (other than those granted confidential treatment under DNREC rules), and a copy or summary of other materials, if any, considered in preparing the "draft" permit may be inspected at the office of the Division of Air Quality, State Street Commons, 100 W. Water Street, Suite 6A, Dover, DE 19904. To submit comments, for additional information or for an appointment to inspect the public file, please contact Tracy Mattson in the Dover office at (302) 739-9402.

A public hearing concerning the permitting action will not be held unless the Secretary of the Department of Natural Resources and Environmental Control receives a request for such hearing within thirty (30) days from the date of this notice, ending **October 16**. A request for a hearing shall be in writing and must show a familiarity with the application and a reasoned statement of the permit's probable impact.

DIVISION OF WASTE AND HAZARDOUS SUBSTANCES

SITE INVESTIGATION AND RESTORATION SECTION (SIRS) is responsible for the identification, evaluation, and remediation of sites in Delaware that have had past releases of hazardous substances. The section manages the contaminated sites under three major programs in accordance with the Hazardous Substance Cleanup Act (HSCA). The three programs are the **Brownfields Development Program, the Voluntary Cleanup Program (VCP), and the HSCA Enforcement Program** (for sites requiring enforcement action).

The Brownfields Development Program encourages the cleanup and redevelopment of either the entire property, the expansion of the property, or the reuse of the property which may be hindered by the reasonable held belief that the property may be contaminated. A party seeking to develop such a property negotiates with SIRS for a **Brownfields Development Agreement (BDA)** to perform an investigation and, if necessary, a remedy, for the purpose of addressing the risks posed by past releases of hazardous substances at these sites. However, a BDA is only available to parties that are not current owners or operators of the site. The **Voluntary Cleanup Program (VCP) Agreement** is available to site owners who want to clean up their sites and are already liable as a potentially responsible party for the site.

NOTIFICATION OF NEGOTIATIONS FOR A BROWNFIELDS DEVELOPMENT AGREEMENT FOR THE SWAIN PROPERTY (DE-1686)

Pursuant to the Hazardous Substance Cleanup Act (HSCA), 7 Del. C. Chapter 91, §9126, the Department of Natural Resources and Environmental Control (DNREC) is required to issue a public notice within twenty days after entering into negotiations for a Brownfields Development Agreement (BDA). A BDA is an agreement between DNREC and a Brownfields Developer with respect to a Certified Brownfield Site that sets forth a scope of work and schedule of remedial activities during the development of the Site.

DNREC's Site Investigation and Restoration Section (DNREC-SIRS) is negotiating a BDA with Jack Lingo Asset Management, LLC regarding the Swain Property Site (Site), located at 5877 and 5899 Rehoboth Boulevard, Milford, Delaware. Identified by Sussex County as tax parcel numbers 330.11.00-42 and 330-11.00-42.01 the Site may have had a release of hazardous substances as a result of historical activities on site. For more information, please see DNREC's navigator at: <http://www.nav.dnrec.delaware.gov/DEN3>.

Learn more about this Site and other Brownfields sites by accessing DNREC-SIRS' web page at <http://www.awm.delaware.gov/SIRB/Pages/Brownfields.aspx> or by contacting the DNREC-SIRS Project Manager, Caleb Melvin at (302) 395-2600 or Caleb.Melvin@state.de.us. For more information you may also

visit: <http://www.dnrec.delaware.gov/Lists/Public/20Notices/DispForm.aspx?ID=4371&Source=http%3A%2F%2Fwww.dnrec.de.gov/Lists/Public/2520Notices/2FAllItems%2Easpx&ContentTypeId=0x010034FD6D348B0CF04392485E93FC15AB3A>

NOTIFICATION OF NEGOTIATIONS FOR A BROWNFIELDS DEVELOPMENT AGREEMENT FOR CITISTEEL, AREA A, (DE-0046)

Pursuant to the Hazardous Substance Cleanup Act (HSCA), 7 Del. C. Chapter 91, §9126, the Department of Natural Resources and Environmental Control (DNREC) is required to issue a public notice within twenty days after entering into negotiations for a Brownfields Development Agreement (BDA). A BDA is an agreement between DNREC and a Brownfields developer with respect to a Certified Brownfield Site that sets forth a scope of work and schedule of remedial activities during the development of the Site.

DNREC's Site Investigation and Restoration Section (DNREC-SIRS) is negotiating a BDA with the Delaware Department of Transportation regarding the CitiSteel, Area B Site (Site), located at 4001 Philadelphia Pike in Wilmington, Delaware. Identified by New Castle County as tax parcel number 06-059.00-165 the Site may have had a release of hazardous substances as a result of historical activities on site. For more information, please see DNREC's navigator at:

<http://www.nav.dnrec.delaware.gov/DEN3>.

Learn more about this Site and other Brownfields sites by accessing DNREC-SIRS' web page at <http://www.awm.delaware.gov/SIRB/Pages/Brownfields.aspx> or by contacting the DNREC-SIRS Project Manager, John Cargill at (302) 395-2600 or John.Cargill@state.de.us. You may also visit: <http://www.dnrec.delaware.gov/Lists/Public%20Notices/DispForm.aspx?ID=4375&Source=http%3A%2F%2Fwww%2Ednrec%2Edelaware%2Egov%2FLists%2FPublic%2520Notices%2FAllItems%2Easpx&ContentTypeld=0x010034FD6D348B0CF04392485E93FC15AB3A>

NOTIFICATION OF NEGOTIATIONS FOR A BROWNFIELDS DEVELOPMENT AGREEMENT FOR THE NANTICOKE CLEANERS BLADES SITE (DE-1685)

Pursuant to the Hazardous Substance Cleanup Act (HSCA), 7 Del. C. Chapter 91, §9126, the Department of Natural Resources and Environmental Control (DNREC) is required to issue a public notice within twenty days after entering into negotiations for a Brownfields Development Agreement (BDA). A BDA is an agreement between DNREC and a Brownfields developer with respect to a Certified Brownfield Site that sets forth a scope of work and schedule of remedial activities during the development of the Site.

DNREC's Site Investigation and Restoration Section (DNREC-SIRS) is negotiating a BDA with the Town of Blades regarding the Nanticoke Cleaners Site (Site), located at 35 N. Market Street, Blades, Delaware. Identified by Sussex County as tax parcel number 132-1.11-37.00 the Site may have had a release of hazardous substances as a result of historical activities on site. For more information, please see DNREC's navigator at: <http://www.nav.dnrec.delaware.gov/DEN3>. Learn more about this Site and other Brownfields sites by accessing DNREC-SIRS' web page at <http://www.awm.delaware.gov/SIRB/Pages/Brownfields.aspx> or by contacting the DNREC-SIRS Project Manager, Rick Galloway at (302) 395-2600 or Rick.Galloway@state.de.us. For more information

visit: <http://www.dnrec.delaware.gov/Lists/Public%20Notices/DispForm.aspx?ID=4378&Source=http%3A%2F%2Fwww%2Ednrec%2Edelaware%2Egov%2FLists%2FPublic%2520Notices%2FAllItems%2Easpx&ContentTypeld=0x010034FD6D348B0CF04392485E93FC15AB3A>

The Proposed and Final Plans of Remedial Action listed below outline site cleanup activities and covenants and are available online at:

<http://www.dnrec.delaware.gov/whs/awm/SIRB/Pages/SIRBPlans.aspx> under "Announcements." For site-specific information, please see DNREC's Environmental Navigator at: <http://www.nav.dnrec.delaware.gov/DEN3>

LEGAL NOTICE - PROPOSED PLAN OF REMEDIAL ACTION FOR THE FORMER BOB'S SPEED SHOP SITE (DE-1654)

The Department invites public comment on a proposal to clean-up the Former Bob's Speed Shop Site located in Laurel, DE. The Site, once used as an automotive repair shop/store and mobile home sales business, is impacted by petroleum related contaminants in groundwater. The Proposed Plan of Remedial Action includes monitoring groundwater and restricting the use of groundwater at the Site.

Details of the Proposed Plan are available at the office of DNREC-SIRS (391 Lukens Drive, New Castle, DE, 19720), or 21309 Berlin Road, Suite 2, Georgetown, DE 19947 or online at:

<http://www.nav.dnrec.delaware.gov/DEN3/>. The comment period ends on **September 18**. For additional information, please contact Stephanie Gordon, Project Manager at (302) 395-2600 or via email at stephanie.gordon@state.de.us. You may also

visit: <http://www.dnrec.delaware.gov/Lists/Public%20Notices/DispForm.aspx?ID=4358&Source=http%3A%2F%2Fwww%2Ednrec%2Edelaware%2Egov%2FLists%2FPublic%2520Notices%2FAllItems%2Easpx&ContentTypeld=0x010034FD6D348B0CF04392485E93FC15AB3A>

LEGAL NOTICE - PROPOSED PLAN OF REMEDIAL ACTION FOR THE WEST 7TH STREET SITE (DE-1078)

The Department invites public comment on a proposal to clean-up the West 7th Street Site located in Wilmington, DE. The Site was previously occupied by residential dwellings that were demolished and covered over with contaminated urban fill material. The Site has also been suspected to have been impacted from nearby former auto repair facility and a dry cleaning

facility. The proposed plan requires capping of the Site, an Environmental Covenant limiting the withdrawal of groundwater, restricting the Site-use to non-residential, and compliance with a Contaminated Materials Management Plan.

Details of the Proposed Plan are available at the office of DNREC-SIRS (391 Lukens Drive, New Castle, DE, 19720), or online at: <http://www.nav.dnrec.delaware.gov/DEN3/>

The comment period ends on **September 18**. For additional information, please contact Eileen Capitoli, Project Manager at (302) 395-2600 or via email at eileen.capitoli@state.de.us. You may also

visit: <http://www.dnrec.delaware.gov/Lists/Public%20Notices/DispForm.aspx?ID=4357&Source=http%3A%2F%2Fwww%2Ednrec%2Edelaware%2Egov%2FLists%2FPublic%2520Notices%2FAllItems%2Easpx&ContentTypeId=0x010034FD6D348B0CF04392485E93FC15AB3A>

LEGAL NOTICE - AMENDED PROPOSED PLAN OF REMEDIAL ACTION FOR THE Amer Industrial TECHNOLOGIES OU-2

The Department invites public comment on a proposal to clean up the Amer Industrial Technologies Operable Unit 2 (OU-2) located at 100 Amer Road, Fox Point Industrial Park in Wilmington, Delaware. The Site consists of two (2) tax parcels totaling 25 acres located on the western banks of the Delaware River. Soil is impacted by lead over DNREC soil standards for residential use of the property. Groundwater is impacted by lead but surface water has not been impacted.

The remedy consisted of: 1) an environmental covenant restricting land use to commercial, limiting groundwater withdrawal, compliance with a contaminated material management plan (CMMP), 2) a CMMP for new construction or soil disturbing activities, 3) Excavate lead in Lead Area 1, consolidate and cap Lead Area 2, 4) Cap soil in Lead Area 3, and 5) Develop a DNREC approved Long-Term Stewardship (LTS) Plan to monitor the groundwater and cap.

Details of the Amended Proposed Plan are available at the office of DNREC-SIRS (391 Lukens Drive, New Castle, DE, 19720), or online at <http://www.nav.dnrec.delaware.gov/DEN3/>

The comment period ends on **September 19**. For additional information, please contact Rick Galloway, Project Manager, at (302)395-2600 or rick.galloway@state.de.us. You may also

visit: <http://www.dnrec.delaware.gov/Lists/Public%20Notices/DispForm.aspx?ID=4363&Source=http%3A%2F%2Fwww%2Ednrec%2Edelaware%2Egov%2FLists%2FPublic%2520Notices%2FAllItems%2Easpx&ContentTypeId=0x010034FD6D348B0CF04392485E93FC15AB3A>

LEGAL NOTICE - FINAL PLAN OF REMEDIAL ACTION FOR THE Governor's Square Dry Cleaner Site (DE-1649)

The Department has adopted a plan regarding the clean-up of the Governor's Square Dry Cleaners Site in Bear, Delaware. The remedy consists of installation of a ventilation system under the floor; a Long-Term Stewardship Plan to monitor the ventilation system; and restricting the Site use to commercial, limiting groundwater withdrawal, and any earth moving activities.

DNREC issued public notice of the Proposed Plan for the Governor's Square Dry Cleaners Site on August 5, 2018. There were no comments or questions from the public regarding the Proposed Plan. Details of the Final Plan are available at the DNREC office located at 391

Lukens Drive, New Castle, DE 19720 or online at: <http://www.nav.dnrec.delaware.gov/DEN3/>

For additional information, please contact Rick Galloway, Project Manager at (302) 395-2600 or via email at rick.galloway@state.de.us. For more information

visit: <http://www.dnrec.delaware.gov/Lists/Public%20Notices/DispForm.aspx?ID=4373&Source=http%3A%2F%2Fwww%2Ednrec%2Edelaware%2Egov%2FLists%2FPublic%2520Notices%2FAllItems%2Easpx&ContentTypeId=0x010034FD6D348B0CF04392485E93FC15AB3A>

LEGAL NOTICE - FINAL PLAN OF REMEDIAL ACTION FOR THE HAMILTON PARK/PYLES LANE SITE – OPERABLE UNITS- 29, 30, and 31 (DE-1284)

The Department has adopted a plan regarding the clean-up of Operable Units 29, 30, and 31 of the Hamilton Park/Pyles Lane Site, a residential neighborhood located in New Castle. The plan includes the removal of soil within the top two feet below ground surface (bgs) in select areas within each operable unit.

DNREC issued public notice of the Proposed Plan for Operable Units 29, 30, and 31 of the Hamilton Park/Pyles Lane Site on August 15, 2018. There were no comments or questions from

the public regarding the proposed remedial actions in the Proposed Plan. Details of the Final Plan are available at the office of DNREC-SIRS (391 Lukens Drive, New Castle, DE, 19720), or online at: <http://www.nav.dnrec.delaware.gov/DEN3/> For additional information, please contact Lindsay Hall, Project Manager at (302) 395-2600 or via email at Lindsay.Hall@state.de.us. LEGAL NOTICE - AMENDED FINAL PLAN OF REMEDIAL ACTION FOR THE Former ICI Americas Inc. Atlas point Site, Operable Unit 1: Soil and Sediment, Operable Unit 2: Groundwater DE-0049

The Department has adopted a plan regarding the clean-up of the Former ICI Americas Site located at 315 Cherry Lane in New Castle. The approximately 177-acre Site is the historical location of the Former ICI Americas Atlas Point facility and operated as a manufacturing plant since 1936. A wide range of chemically-based products have been produced and various locations on the Site have served as waste disposal locations. Various parcels have undergone several changes in ownership and use through the years. Numerous remedial actions have occurred on this site but remaining contamination requires limitations of use, restrictions on disturbing specific location, as well as a combination of active groundwater remediation and monitored attenuation of groundwater contamination.

DNREC issued public notice of the Amended Proposed Plan for the Former ICI Americas Site on August 12, 2018. There were no comments or questions from the public regarding the Amended Proposed Plan. Details of the Amended Proposed Plan are available at the office of DNREC-SIRS (391 Lukens Drive, New Castle, DE, 19720) or online at:

<http://www.nav.dnrec.delaware.gov/DEN3/>

For additional information, please contact Patrick Boettcher, Project Manager at (302) 395-2600 or via email at Patrick.boettcher@state.de.us. You may also

LEGAL NOTICE - PROPOSED PLAN OF REMEDIAL ACTION FOR THE HAMILTON PARK/PYLES LANE SITE – OPERABLE UNITS 32 and 33 (DE-1284)

The Department invites public comment on a proposal to cleanup Operable Units (OUs) –32 and 33 of the Hamilton Park/Pyles Lane Site, a residential neighborhood located in New Castle. Fill material placed before the houses were constructed, as well as remnants of foundry operations previously located in the rear of the neighborhood, are the likely sources of elevated metals and polycyclic aromatic hydrocarbons (PAHs) detected within the top 0 to 2 feet below ground surface (bgs). The plan includes the removal of soil within the top two feet bgs in select areas within each operable unit.

Details of the Proposed Plan are available at the office of DNREC-SIRS (391 Lukens Drive, New Castle, DE, 19720) or online at: <http://www.nav.dnrec.delaware.gov/DEN3/>

The comment period ends on **October 2**. For additional information, please contact Lindsay Hall, Project Manager, or at (302) 395-2600 or via e-mail at Lindsay.Hall@state.de.us. You may also

visit: <http://www.dnrec.delaware.gov/Lists/Public%20Notices/DispForm.aspx?ID=4386&Source=http%3A%2F%2Fwww%2Ednrec%2Edelaware%2Egov%2FLists%2FPublic%2520Notices%2FAllItems%2Easpx&ContentTypeld=0x010034FD6D348B0CF04392485E93FC15AB3A>

LEGAL NOTICE - PROPOSED PLAN OF REMEDIAL ACTION FOR THE 504 KIRKWOOD HIGHWAY SITE (DE-1661)

The Department invites public comment on a proposal to clean up the 504 Kirkwood Highway Site located in Elsmere, Delaware. The Site was used previously as an auto filling station, an auto parts supply company, and a used car lot. The Proposed Plan requires recording an Environmental Covenant to: restrict the property to commercial uses, to prevent the withdrawal of groundwater; and the submittal of a DNREC-approved Contaminated Materials Management Plan. Details of the Proposed Plan are available at the office of DNREC-SIRS (391 Lukens Drive,

New Castle, DE, 19720), or online at <http://www.nav.dnrec.delaware.gov/DEN3/>
The comment period ends on **October 9**. For additional information, please contact Kristen Thornton, Project Manager, at (302)395-2600 or email at Kristen.thornton@state.de.us. For more information

DIVISION OF WATER – GROUNDWATER DISCHARGES SECTION

LEGAL NOTICE - On-Site Wastewater Treatment and Disposal System

Pet Realty, LLC has applied for a permit to construct an on-site wastewater treatment and disposal system on their property located on the east side of US Route 13 (Sussex Highway) approximately 500' north of County Road 600 (Fawn Road) near Bridgeville, DE Sussex County Tax parcel 1-31-11.00-1.00 The proposed system would serve an existing veterinary clinic and would have a design flow rate of 820 gallons per day.

The above mentioned application may be inspected by contacting:

Kathleen Saunders, Groundwater Discharges, 89 Kings Highway, Dover, DE 19901

Kathleen.Saunders@state.de.us, (302) 739-9948.

A public hearing on the above application will NOT be held unless the Secretary of DNREC determines that a public hearing is in the public interest or if a written meritorious objection to the application is received within 15 days from this notice. A public hearing request shall be deemed meritorious if it exhibits a familiarity with the application and provides a reasoned statement of the action's probable impact. For more information

LEGAL NOTICE

Non-Hazardous Liquid Waste Transporters Permit (Renewal)

Fogle's Environmental Services, LLC has applied to the Groundwater Discharges Section for a renewal of Non-Hazardous Liquid Waste Transporters Permit DE OH-102 which allows for the transport of portable toilet waste to be disposed of at the Town of Laurel Wastewater Treatment Facility.

Streett Septic Services has applied to the Groundwater Discharges Section for a renewal of Non-Hazardous Liquid Waste Transporters Permit DE WH-405 which allows for the transport of septage and grease trap waste and/or cooking oil waste to be disposed of at the Kent County Sewer System.

On-Site Wastewater Treatment and Disposal System

Summit Aviation Inc. has submitted renewal application for an operation permit for an on-site

wastewater treatment and disposal system to serve the Summit Aviation office and storage buildings. The system has been designed to accommodate 9,300 gallons per day of wastewater. The site is located at 4200 Summit Bridge Road, New Castle County, tax parcel # 11-23.00-017.

Connections Community Support Programs Inc., has applied to construct a Capping Fill Low Pressure Pipe on-site wastewater treatment and disposal system. The system has been designed to accommodate 1200 gallons per day of wastewater. The system will service a group home consisting of 10 bedrooms. The property is located at 706 Port Penn Road, Middletown, DE 19709, Tax Map No. 13-009.00-395.

The above mentioned applications may be inspected by contacting: Kathleen Saunders, Groundwater Discharges, 89 Kings Highway, Dover, DE 19901, Kathleen.Saunders@state.de.us (302) 739-9948.

A public hearing on the above applications will NOT be held unless the Secretary of DNREC determines that a public hearing is in the public interest or if a written meritorious objection to the application is received within 15 days from this notice. A public hearing request shall be deemed meritorious if it exhibits a familiarity with the application and provides a reasoned statement of the action's probable impact. You may also

DIVISION OF WATER - SURFACE WATER DISCHARGES – The Division of Water hereby gives notice that the following permit applications have been received.

LEGAL NOTICE - DNREC – Division of Water, Surface Water Discharges Section, NPDES Permits

The Department of Natural Resources and Environmental Control, Division of Water, hereby gives notice of the following proposal regarding National Pollutant Discharge Elimination System (NPDES) permits:

The Board of Public Works of the City of Lewes has filed a timely and sufficient application for reissuance of its NPDES Permit No. DE0021512 (State Number WPCC 3075H/74) to discharge treated wastewater from its sanitary wastewater treatment facilities to the Lewes segment of the

Lewes-Rehoboth Canal from its facilities located at 116 American Legion Road, Lewes, Sussex County, Delaware. The facility is a municipal wastewater treatment facility that receives wastewater from the City collection system, provides treatment, and discharges to the Lewes segment of the Lewes-Rehoboth Canal. The facility is designated as major publicly owned treatment works (POTW) based on the design flow of over one million gallons per day. There are no industrial waste contributors to the collection system, and no combined sewer overflows (CSO). The permittee has identified 2 discharge points at the facility in the permit application. Outfall 001 consists of sanitary wastewater. Wastewater treatment consists of a 5 millimeter (mm) band screen, grit removal, flow equalization, 2 mm band screen, membrane biofiltration process, and U.V disinfection. Waste sludge is stabilized, dried on porous asphalt drying beds and/or vacuum sludge press, and disposed at a landfill. One storm water outfall (SW001) also discharges from the site.

Based on a preliminary staff review and application of lawful standards and regulations, the Department proposes to re-issue this permit, subject to certain effluent limitations and conditions. The proposed determinations are tentative. Persons wishing to comment upon or object to the proposed determinations are invited to submit same in writing to the Surface Water Discharges Section of the Division of Water, at the address listed below, no later than 30 days from this notice. All comments received prior to said date will be considered in the formulation of final determinations regarding this application.

A public hearing on the above will NOT be held unless the Secretary of DNREC receives a request by **4:30 pm, September 21**, or if the Secretary determines that a public hearing is in the public interest. A request for a hearing shall be in writing and shall state the nature of the issues to be raised at the hearing. It must also show familiarity with the proposal and a reasoned statement of the permit's probable impact.

The applications, fact sheets, and permits are available for inspection or copies may be obtained by contacting: Division of Water, Surface Water Discharges Section, 89 Kings Highway, Dover, Delaware 19901, (302) 739-9946. You may also

LEGAL NOTICE - DNREC – Division of Water, Surface Water Discharges Section

Wastewater Facilities Construction Permit Application

The Delaware Department of Natural Resources and Environmental Control, Division of Water, hereby gives notice that a permit application has been received from:

WF Venture, LLC of Newark to construct a new duplex sewage pumping station, with Xylem Flygt NP 3085 MT pumps, associated piping, valves, controls and related facilities and approximately three thousand, two hundred and forty linear feet of four inch (3,240 LF of 4") forcemain, to serve a new convenience store/gas station and a future residential community consisting of 300 apartments. The pump station will be located at 5018 Summit Bridge Road, Middletown, New Castle County, Delaware, and the forcemain will run southwards and connect to an existing sewer through a new manhole in the Spring Mill Subdivision, Middletown, New Castle County, Delaware. Questions regarding the applications and plans for the above are available for inspection by contacting:

Dr. Davison Mwale (PhD) Environmental Finance, Office of the Secretary, 97 Commerce Way, Suite 106, Dover, DE 19904
(302) 739-9941

A public hearing concerning the above application will NOT be held unless the Secretary of DNREC determines that a hearing is in the public interest or if a written meritorious request for a hearing is received on or before **September 23**. A request for a public hearing shall be deemed meritorious if it exhibits a familiarity with the application and provides a reasoned statement of the permit's probable impact. For more information

visit: <http://www.dnrec.delaware.gov/Lists/Public%20Notices/DispForm.aspx?ID=4384&Source=http%3A%2F%2Fwww%2Ednrec%2Edelaware%2Egov%2FLists%2FPublic%2520Notices%2FAllItems%2Easpx&ContentTypeId=0x010034FD6D348B0CF04392485E93FC15AB3A>

LEGAL NOTICE - Division of Water, Surface Water Discharges Section, NPDES Permits

The Department of Natural Resources and Environmental Control, Division of Water, hereby gives notice of the following proposal regarding National Pollutant Discharge Elimination System (NPDES) permits:

Indian River Power LLC has filed a timely and sufficient application for reissuance of its NPDES Permit No. DE0050580 (State Number WPCC 3013D/76) to discharge cooling tower blowdown, screen backwash, industrial wastewater treatment effluent, strainer backwash, and storm water to Island Creek, a tributary to Indian River, and Indian River Bay from its facilities located at 29416 Power Plant Road in Dagsboro, Sussex County, Delaware. The Indian River Generating Station (IRGS) is a coal fired steam electric generating plant. The IRGS began commercial operation in November 1957 and at its peak had four generating units with a combined generating capacity of approximately 771 Megawatts. The older generating units (Units 1, 2, and 3) which employed once through cooling systems were shut down just prior to or during the term of the current permit. Unit 4 is the only steam electric generating unit in operation at the IRGS. Unit 4 utilizes mechanical draft closed cycle cooling (a "closed-cycle recirculating system" per USEPA's 316(b) regulation) for all of its cooling needs. The permittee has identified 11 discharge points at the facility in the permit application. Outfall 027 consists of Unit #4 Cooling Tower Blowdown. Outfall 029 consists of Unit #4 Screen Backwash. Outfall 030 consists of Industrial Wastewater Treatment Effluent. Outfalls 031, 032, 033, 034, 035, 037, 042, and 045 consist of storm water only. All but one of the outfalls discharges directly or via the Discharge Canal and/or Island Creek to the Indian River. The one exception is Outfall 030 which discharges to the Cooling Tower Basin where it is recycled for use in the Unit 4 cooling tower.

Based on a preliminary staff review and application of lawful standards and regulations, the Department proposes to re-issue this permit, subject to certain effluent limitations and conditions. The proposed determinations are tentative. Persons wishing to comment upon or object to the proposed determinations are invited to submit same in writing to the Surface Water Discharges Section of the Division of Water, at the address listed below, no later than 30 days from this notice. All comments received prior to said date will be considered in the formulation of final determinations regarding this application.

A public hearing on the above will NOT be held unless the Secretary of DNREC receives a request by **4:30 pm, September 25**, or if the Secretary determines that a public hearing is in the public interest. A request for a hearing shall be in writing and shall state the nature of the issues to be raised at the hearing. It must also show familiarity with the proposal and a reasoned statement of the permit's probable impact.

The applications, fact sheets, and permits are available for inspection or copies may be obtained by contacting: Division of Water, Surface Water Discharges Section, 89 Kings Highway Dover, Delaware 19901, (302) 739-9946. You may also

visit: <http://www.dnrec.delaware.gov/Lists/Public%20Notices/DispForm.aspx?ID=4360&Source=http%3A%2F%2Fwww%2Ednrec%2Edelaware%2Egov%2FLists%2FPublic%2520Notices%2FAllItems%2Easpx&ContentTypeId=0x010034FD6D348B0CF04392485E93FC15AB3A>

LEGAL NOTICE - Division of Water, Surface Water Discharges Section, NPDES Permits

The Department of Natural Resources and Environmental Control, Division of Water, hereby gives notice that Perdue Foods, LLC has applied for reissuance of its National Pollutant Discharge System (NPDES) Permit No. DE0000469 (State Number WPCC 3011G/74) to discharge treated process wastewater, sanitary wastewater, boiler blowdown, and storm water from their facility located at 20621 Savannah Rd in Georgetown, Sussex County, to Savannah Ditch. The facility is a poultry processing.

There are two (2) outfalls at this site which discharge to Savannah Ditch. Outfall 002 consists of discharge from the process wastewater treatment system and Outfall 004 consists of stormwater from a grassed non-process area.

Based on a preliminary staff review and application of lawful standards and regulations, the Department proposes to re-issue this permit, subject to certain effluent limitations and conditions. The proposed determinations are tentative. Persons wishing to comment upon or object to the proposed determinations are invited to submit same in writing to the Surface Water Discharges Section of the Division of Water, at the address listed below, no later than 30 days

from this notice. All comments received prior to said date will be considered in the formulation of final determinations regarding this application.

A public hearing on the above will NOT be held unless the Secretary of DNREC receives a request by **4:30 pm, September 25**, or if the Secretary determines that a public hearing is in the public interest. A request for a hearing shall be in writing and shall state the nature of the issues to be raised at the hearing. It must also show familiarity with the proposal and a reasoned statement of the permit's probable impact.

The applications, fact sheets, and permits are available for inspection or copies may be obtained by contacting: Division of Water, Surface Water Discharges Section, 89 Kings Highway Dover, Delaware 19901, (302) 739-9946. You may also

LEGAL NOTICE - General Concentrated Animal Feeding Operation Permits

The Department of Natural Resources and Environmental Control (DNREC), Division of Water Resources, Surface Water Discharges Section and the Department of Agriculture, Nutrient Management Program, hereby give notice that the following farms have applied for coverage under National Pollutant Discharge Elimination System (NPDES) General Concentrated Animal Feeding Operation (CAFO) Permit Number DE 5000N/11, to operate a Large, Medium, or Designated Poultry CAFO without land application of manure under Section 9.5 of the DNREC's Regulations Governing the Control of Water Pollution.

Large CAFO's are characterized as having equal to or greater than 125,000 chickens (C), 82,000 laying hens (L), or 55,000 turkeys (T). Medium CAFO's are characterized as having 37,500-124,999 chickens, 25,000-81,999 laying hens, or 16,500-54,999 turkeys. Designated CAFO's are determined by the department and can be any size. Chicken manure is not land applied by these farms and is exported off the farm. Manure is stored and mortalities are handled in a manner to prevent contamination of waters of the state. All farms have Animal Waste Management Plans that meet the criteria of the CAFO Regulations. Manure, litter, and/or process wastewater discharges are prohibited from the production area. There are currently no known existing production area discharge points at these farms. Any discharges of manure, litter, and/or process wastewater that may occur would be new discharges and are required to be reported to the departments.

On the basis of a preliminary staff review and application of lawful standards and regulations, DNREC proposes to issue general CAFO permit coverage to the above referenced farms, subject to certain effluent limitations and conditions.

The Secretary of DNREC intends to issue General NPDES CAFO permit coverage under Section 9.5 of the Department's Regulations Governing the Control of Water Pollution for the above farms. Section 9.5 of the Department's Regulations Governing the Control of Water Pollution allows for such activity pending public notice.

Copies of the Notice of Intent, Animal Waste Management Plan, and permit are available by contacting:

Nutrient Management Program
Delaware Department of Agriculture
2320 South DuPont Highway
Dover, DE 19901
(302)-698-4500
Dda.foia@state.de.us

A public hearing will not be held on any of the above farms unless the Secretary of DNREC receives a meritorious request by **4:30 PM on September 27**. A request for a hearing shall list the specific farm, be in writing and shall state the nature of the issues to be raised at the hearing. It must also show a familiarity with the application and a reasoned statement of the activity's probable impact. For more information
