### **HSCA Advisory Committee (Updated)**

DNREC Division of Waste and Hazardous Substances / Waste and Hazardous Substances / Natural Resources and Environmental Control  
Review and provide guidance and input for DNREC's cleanup programs regulated under the Hazardous Substance Cleanup Act (HSCA). **September 05 at 09:00 AM** at the Department of Natural Resources & Environmental Control, 391 Lukens Drive, New Castle DE 19720  
Interested parties are invited to attend the advisory committee meetings. Additional information such as Brownfields certification, possible grant funding, success stories and other related documentation can be found at the following website: <http://www.awm.delaware.gov/SIRB/Pages/Brownfields.aspx>. For more information, please call Sandra Waltz at 302.395.2600. You may also visit: <https://publicmeetings.delaware.gov/Meeting/63202>

### **Public Hearing**

The DNREC Division of Air Quality will conduct a public hearing on **September 25 at 6:00 pm** at the DNREC Auditorium, 89 Kings Highway, Dover DE, on proposed revisions to the Requirements for Preconstruction Review in the state's Air Regulations. The proposed revisions would update references to EPA's Guideline on Air Quality Models (Guideline) in the Requirements for Preconstruction Review (7 DE Admin. Code 1125). The EPA has made several revisions to the Guideline since it was first published, in 1978. The Department is proposing to amend 7 DE Admin. Code 1125 to incorporate by reference the most recent revisions to the Guideline (Appendix W to 40 CFR Part 51 — Requirements for Preparation, Adoption, and Submittal of Implementation Plans).  
Public Hearing Officer, Theresa Newman, DNREC Office of the Secretary, 89 Kings Highway Dover, DE 19901. For more information visit: <https://dnrec.alpha.delaware.gov/events/460/public-hearing-requirements-for-preconstruction-review/>

**REMEDIATION SECTION (RS)** is responsible for the identification, evaluation, and remediation of sites in Delaware that have had past releases of hazardous substances. The section manages the contaminated sites under three major programs in accordance with the Hazardous Substance Cleanup Act (HSCA). The three programs are the **Brownfields Development Program, the Voluntary Cleanup Program (VCP), and the HSCA Enforcement Program** (for sites requiring enforcement action).

#### **Intent to Implement Post-Closure at the Delaware City Refinery Under the Delaware Regulations Governing Hazardous Waste**

Pursuant to 7 Del. C., Chapters 60 and 63, Delaware's *Regulations Governing Hazardous Waste* (DRGHW), the Delaware Department of Natural Resources and Environmental Control (DNREC), Remediation Section (RS) has made a preliminary decision to issue a hazardous waste Permit for Post-Closure to Motiva Enterprises LLC (Motiva), located at 4550 Wrangle Hill Road in Delaware City, Delaware. The current Post-Closure Permit has expired, and, DNREC proposes to issue a new permit to continue hazardous waste post-closure activities at the Land Treatment Unit (LTU) at this facility.

The Delaware City Refinery (DCR) is located on a 5,050 acre tract of land located approximately 1 mile north of Delaware City, Delaware. The land north and south of the Refinery is mostly farmland, with the exception of several industrial complexes located immediately north and west of the Refinery. The eastern property boundary of DCR borders the Delaware River. The manufacturing facilities occupy approximately 1,000 of the 5,050 acres of the property. The Refinery produces mainly gasoline and heating oil. The Refinery began operation in 1956. Star Enterprise owned and operated the DCR until it was sold to Motiva Enterprises, LLC (Motiva) in 2000. In May 2004, Motiva sold the DCR to Premcor Refining Group, Inc. The Refinery was

again sold in September 2005 to Valero. Valero sold the Refinery to PBF Energy on June 1, 2010. PBF Energy currently owns and operates the DCR.

The closed LTU is located in the north-central area of Delaware City Refinery. The total area of the former LTU covers approximately 46 acres. The area of waste application and treatment covers an area of approximately 34 acres and was divided into 12 cells. DCR operated the LTU from 1981 through 1992. Both hazardous and non-hazardous wastes were applied to the LTU from the period of 1981 through March 1992.

On July 23, 1996, the Site was issued RCRA Post-Closure Permit No. HW06A07. This permit has expired and in August 2018, Motiva submitted a post-closure application for LTU. The application essentially seeks a continuance of the care/maintenance and monitoring program for LTU that was begun on July 23, 1996 with the issuance of Post-Closure Permit No.

HW06A07. DNREC will oversee post-closure activities through the administration of the post-closure permit. The post-closure permit includes provisions for:

Maintenance of the vegetative cover, Groundwater monitoring, Maintenance of the run-on and run-off control systems, Security and access control, and Financial assurances.

Persons wishing to comment upon the draft permit application are invited to submit written comments. The written comments must be received no later than Thursday, **August 15**.

Comments must be sent to DNREC, RE: DED002329738; File Code: 16 at the address below. Division of Waste And Hazardous Substances, Remediation Section, 89 Kings Highway Dover, DE 19901.

All written comments received prior to the end of the forty-five (45) day comment period will be considered when formulating the final determination. A public hearing may be held if the Department receives a meritorious request for a hearing prior to the Thursday, **August 15** deadline, or if the Secretary deems it to be in the best interest of the State to do so.

The post-closure draft permit is on file and may be reviewed at the Dover office of DNREC (89 Kings Highway) or the New Castle office of DNREC (391 Lukens Drive). For additional information or to schedule an appointment to review this material, call Christopher L. Brown of the Remediation Section at (302) 739-9403, between the hours of 8:00 a.m. and 4:30 p.m., Monday to Friday. For more information visit: <https://dnrec.alpha.delaware.gov/2019/06/30/intent-to-implement-post-closure-at-the-delaware-city-refinery-under-the-delaware-regulations-governing-hazardous-waste/>

**The Brownfields Development Program** encourages the cleanup and redevelopment of either the entire property, the expansion of the property, or the reuse of the property which may be hindered by the reasonable held belief that the property may be contaminated. A party seeking to develop such a property negotiates with SIRS for a **Brownfields Development Agreement (BDA)** to perform an investigation and, if necessary, a remedy, for the purpose of addressing the risks posed by past releases of hazardous substances at these sites. However, a BDA is only available to parties that are not current owners or operators of the site. The **Voluntary Cleanup Program (VCP) Agreement** is available to site owners who want to clean up their sites and are already liable as a potentially responsible party for the site.

#### **Notification of Public Comment for a Brownfield Development Agreement for the A.M. Domino Jr Salvage Company Site (DE-1173)**

Pursuant to the Hazardous Substance Cleanup Act (HSCA), 7 Del. C. Chapter 91, §9126, the Department of Natural Resources and Environmental Control (DNREC) is required to issue a public notice within twenty days after entering into negotiations for a Brownfield Development Agreement (BDA). A BDA is an agreement between DNREC and a Brownfield developer with respect to a Certified Brownfield Site that sets forth a scope of work and schedule of remedial activities during the development of the Site.

DNREC's Remediation Section (DNREC-RS) negotiated a BDA with Riverfront Development Corporation of Delaware (RDC) regarding the A.M. Domino Jr. Salvage Company Site (Site), located at 810 South Walnut Street in Wilmington, Delaware. Identified by as New Castle County as tax parcel number 10-001.00-021, the Site may have had a release of hazardous substances as a result of salvage activities on Site.

The public comment period begins Monday, July 22 and will close at the end of the business day (4:30 p.m.) on Monday, **August 12**. Please submit written comments to the DNREC-RS Project Manager, Stephanie Gordon at DNREC-RS, 391 Lukens Drive, New Castle, DE 19720. A copy

of the BDA is available at the office of DNREC – RS or by accessing the DNREC-RS' site files database.

The BDA is also part of a settlement agreement with A.M. Domino, Jr. for settlement of the Secretary's Order issued in 2018, which Mr. Domino, Jr. appealed. The settlement included that the Department shall withdraw Secretary's Order No. 2018-WH-0054 contingent upon the satisfaction of all of the following conditions:

1. Conveyance of title to the A.M. Domino Jr. Salvage Co. Site by Owners to RDC;
2. Reimbursement by Owners to DNREC of \$4,117.00 of accrued oversight costs upon conveyance of title to the Site by Owners to RDC;
3. Agreement by RDC to enter into a BDA with DNREC prior to conveyance of title to the Site by Owners to RDC; and
4. Acknowledgement by RDC that available Brownfields grant funding has been reduced by the sum of \$107,322.91 already expended at the Site.
