

**Red-Dyed Low Sulfur Diesel Vendors**  
**as of July 25, 2006**

The following vendors can supply generator owners with **red-dyed (non-taxed) low sulfur diesel fuel**, which complies with the 0.05% sulfur content limit for all diesel fuel, or biodiesel blend, received for use in a generator after April 11, 2006, as required by paragraph 5.1 of Regulation No. 1144, "Control of Stationary Generator Emissions."
