

Delaware State Chamber of Commerce

Recommendations for the
Delaware Multi Pollutant Planning
Meeting

Delaware State Chamber of Commerce

- The Chamber wants power generators in the state to be competitive with other utilities in the region.
- The Chamber wants to assure that there is local cost competitive energy supplies
- The Chamber supports CAIR (Clean Air Interstate Rule) and CAMR (Clean Air Mercury Rule) as proposed by the U. S. EPA.
- We would support new Federal regulation that builds on the above rules without creating abandoned investment or uncertainty going forward.
