

Public Hearing Talking Points

1. A copy of the Public Hearing Handouts that the Department provided at the 8/23, 2007 public hearing on the proposed amendment to Subpart N of Regulation 1138 (Formerly Reg. 38). The handouts include a listing of the Department's Exhibits, a copy of the proposed amendment and a summary of the Department's presentation.
2. A listing of the Exhibits that the Department is entering into the record at tonight's public hearing.
3. The current Regulation No. 38 which includes Subpart N in their original adoption by reference format.
4. The Subpart N technical support document which provides the full text language of the current regulatory requirements. This document served as the starting point for the revision of Subpart N.
5. The chemical of concern associated with chromium electroplating facilities is hexavalent chromium. A hazard summary fact sheet for **chromium compounds** developed by the EPA based on information in their **Integrated Risk Information System (IRIS)** database. The summary provides both the acute and chronic non-cancer effects and the chronic cancer effects due to the exposure to hexavalent chromium and other chromium compounds.
6. A copy of **Start Action Notice** 2006-21 approving the Air Quality Management's plan to amend Subpart N.

The Department adopted Subpart N in 1999 and amended it in 2000. Since that time, EPA has revised the federal requirements that we had adopted by reference in Regulation 1138. We reviewed and considered the federal revisions in **Exhibits 7 through 10**, when developing our proposed amendments under Start Action Notice 2006-21.

11. A listing of known chromium electroplating facilities in Delaware.

In June, the Department sent letter to the three known affected facilities informing them of the revisions and providing each with the dates for upcoming workshop and public hearing and a draft of the planned amendment of Subpart N. Exhibits 12 through 14 are copies of the letters sent to Chrome Deposits, Prucino Plating and Standard Technologies.
