

**DNREC – DIVISION OF AIR QUALITY**

**PUBLIC NOTICE**

**7 DE ADMIN CODE 1131 “LOW ENHANCED INSPECTION AND MAINTENANCE PROGRAM”**

**REGULATORY WORKGROUP MEETING**

The Department of Natural Resources and Environmental Control, Division of Air Quality is proposing to amend 7DE Admin Code 1131 by adding a new section that will require Certified Emission Repair Technicians to obtain a permit from the Department in order to conduct on board diagnostic testing of vehicles that are not in compliance with § 2115 of Title 21. A workgroup representing the regulated community, the Division of Motor Vehicles and DNREC has been established.

The primary objectives of this workgroup are to ensure that the regulatory requirements 1) meet the intent of SB 215 permit program and 2) are clear, correct and adequate to establish the requirements for certifying emission repair technicians by the State of Delaware.

The next workgroup meeting time, location and agenda are as follows.

Workgroup Meeting                      **Tuesday, November 9<sup>th</sup>, 6:30 pm – 8:00 pm**  
**DNREC – Division of Air Quality**  
**755 Grantham Lane**  
**New Castle, DE 19720**

**Agenda**

The workgroup will review and comment on the proposed regulatory language.

For additional information on the meeting and draft regulation, contact Valerie Gray in Dover at (302) 739-9402 or DNREC’s website – <http://www.awm.delaware.gov/Info/Regs/Pages/AQMPlansRegs.aspx> .
