In this SIP revision Delaware addresses those requirements of Section 110(a)(2)(A)-(M) of the CAA which have not been specifically addressed in other SIP revisions. It is a compilation of certain elements that describe how Delaware demonstrates how the eight-hour ozone and in some cases the fine particulate (PM_{2.5}) NAAQS are being implemented, maintained and enforced. The elements of this SIP revision, once approved by EPA, will provide a federally enforceable written confirmation of how Delaware will continue to comply with the Section 110(a)(2) requirements of the CAA.
