**RE: Authorization to Discharge Under the NPDES General Storm Water Permit Program at DSWA-  
Route 5 Transfer Station**

Dear Mr. Vescovi:

The Department has approved your request for Conditional "No Exposure" Certification, for No Exposure Coverage under the National Pollutant Discharge Elimination System (NPDES) Storm Water General Permit Program. Permit coverage began on May 20, 2011 and will expire on May 18, 2016. Approval was granted because the certification submitted specifies that all processes and materials are protected by storm resistant shelters from rain, snow, snowmelt, and/or runoff. This approval means the site located at 29997 John P. Healy Drive, Harbeson, DE 19951 is covered under "The Regulations Governing Storm Water Discharges Associated with Industrial Activities", 7 Del. Admin. C. §7201, with the monitoring requirement (9.1.01.4) and the requirement for a Storm Water Plan (9.1.01.5) being exempt for this type of coverage.

"No Exposure" permit coverage is conditional. If a change in facility operations causes exposure of industrial activities or materials to storm water, a Notice of Intent (NOI) form must be submitted to the Department, along with a Storm Water Plan (submitted both hard copy and digitally). NOI forms can be found at: <http://www.wr.dnrec.delaware.gov/Information/SWDInfo/Pages/SWDSStormWater.aspx>.

Please maintain this "No Exposure" approval on file at the facility at all times. If you have any questions or require further assistance, please contact Steve Mann at (302) 739-9946 or by e-mail at [Stephen.Mann@state.de.us](mailto:Stephen.Mann@state.de.us).

Sincerely,

A handwritten signature in black ink, appearing to read "Robert G. Underwood".

This office has reviewed the plans and specifications of the above described project for compliance with the State of Delaware Fire Prevention Regulations, in effect as of the date of this review.

This Permit does not relieve the applicant, owner, engineer, contractor, nor their representatives from their responsibility to comply with plan review comments and the applicable provisions of the State of Delaware Fire Prevention Regulations in the construction, installation and/or completion of the project as reviewed by this Agency.

This Permit was issued by: Thomas J. Haslam
