

STATE OF DELAWARE 2019 SCRAP TIRE FACILITY ANNUAL REPORT

URGENT REGULATORY MATTER – SUBMISSION DUE 3.1.2020

Scrap tire facilities are required to submit an Annual Report pursuant to Section 12.7.4.1 of Delaware's *Regulations Governing Solid Waste* (DRGSW).

To calculate the percentage of turnover, divide the total amount of scrap tires removed by the January 1st scrap tire inventory then multiply by 100 to get the percentage of turnover. For example calculations, please refer to the "Scrap Tire Facility Percentage of Turnover: Guidance Document" which can be found here: <https://dnrec.alpha.delaware.gov/waste-hazardous/management/scrap-tires>

Please submit the signed and completed annual report to the Department by March 1st of each calendar year in order to meet the reporting requirements of DRGSW §12.7.4.1. Failure to comply with the requirements may result in enforcement. The full scrap tire regulations can be viewed at: <http://regulations.delaware.gov/AdminCode/title7/1000/1300/1301.pdf> After completing this report, provide a signed copy to DNREC via either paper mail:
