

# FINAL PLAN OF REMEDIAL ACTION

## HAMILTON PARK SITE (Operable Unit-2)

*43, 47, 49, 53, 55, 57, 59 and 63 Pyles Lane  
New Castle, Delaware*

*September 16, 2011  
DNREC Project No. DE-1284*

This Final Plan of Remedial Action (Final Plan) presents the Department of Natural Resources and Environmental Control's (DNREC's) intention to address environmental contamination at the Hamilton Park Site (Operable Unit-2).

DNREC issued public notice of the Proposed Plan of Remedial Action (Proposed Plan) for the Site on August 17, 2011 and opened a 20-day public comment period. The Proposed Plan is attached. There were no comments from the public; therefore, the Proposed Plan is adopted as the Final Plan.

DNREC requires the following remedial actions be performed on OU-2 of the Hamilton Park Site:

- Removal of the top two feet of soil in the grass covered areas of each parcel within OU-2. Backfill excavations with DNREC-approved fill material that meets unrestricted use standards and stabilize with grass.

### **Approval:**

**This Final Plan meets the requirements of the Hazardous Substance Cleanup Act.**
