Re: Pigeon Point Landfill Post Closure Permit Application

Dear Ms. Marker:

In accordance with the Delaware Regulations Governing Solid Waste (DRGSW) and pursuant to the Pigeon Point Landfill Interim Agreement (PPLIA) dated December 21, 2005, the Delaware Solid Waste Authority (DSWA) and the City of Wilmington (COW) hereby submit this Letter of Intent requesting a Post Closure Permit for the Pigeon Point Landfill be issued to both parties. The enclosed material to support this request is referred to as our Pigeon Point Landfill Post Closure Permit Application package. The package is organized to mirror the DNREC Post-Closure Permit application form as revised 3/27/2006.

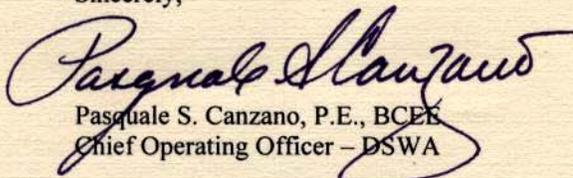

As you are aware, the landfill closed in 1985 in accordance with the applicable regulations at that time. Even though no post closure permit was ever issued, DSWA has provided over twenty (20) years of maintenance and monitoring. During those twenty (20) years, a detailed record of the landfill's minimal and decreasing environmental impact has been kept. A summary of this information is provided in the Environmental Monitoring Plan in Appendix 10 – Exhibit 13.

Due to this positive record, we request that your issuance of a Post Closure Permit at this time recognizes our past efforts in both our actions and financial commitments. Each year the DSWA annual financial reports have shown recognition of financial responsibility for Post Closure Care of the Pigeon Point Landfill beginning January 1986 and continuing for thirty (30) years. As of January 2006, we currently indicate we have a commitment of ten (10) years remaining for Post Closure Care.

The DSWA and COW request the issuance of a joint Post Closure Permit for the remaining ten (10) years of Post Closure Care life.

If you have any questions concerning the content of this application package, please contact Mr. Richard P. Watson, P.E., DEE at (302) 739-5361.

Sincerely,

Pasquale S. Canzano, P.E., BCEE
Chief Operating Officer – DSWA

Kash Srinivasan, P.E.
Commissioner – Public Works Dept. - COW
