Please rate the overall quality of each part of the workshop on a scale of 1 to 5

(Circle one)

Poor ----- Excellent

- | | | | | | |
|---|---|---|---|------|-----|
| • Summary of March workshop (Jen Adkins) | 1 | 2 | 3 | 4 | 5 |
| • Presentation on habitat/species (Jim White) | 1 | 2 | 3 | 4 | 4.9 |
| • Discussion of choices (Bill McGowan) | 1 | 2 | 3 | 4.14 | 5 |
| • Workshop date, time, and location | 1 | 2 | 3 | 3.7 | 5 |
| • Written Materials/Display | 1 | 2 | 3 | 3.7 | 5 |
| • Other: _____ | 1 | 2 | 3 | 4 | 5 |

Which of these topics would you like more information about in the future?

- Project progress / updates 4
- Information on habitat, species, and natural communities 4
- Group discussion of issues, choices, and strategies regarding conservation efforts 3
- Other: *Why would you possibly wait until fall to address these issues? Some people would come - keep the meetings alive.*

The next round of community workshops will be convened in the fall. Until then, there are other alternative for ways to keep you informed and involved in this effort over the spring/summer. **Please check the one(s) that you prefer:**

- Mailed information 6
- Field trips 2 (*but 7 said yes to field trips on sign-in sheet*)
- Focus groups (meetings of smaller groups with more discussion) 2 (*but 6 said yes to focus groups on sign-in sheet*)
- Mini-presentations/workshops 3
- Other: _____

Please use the back of this page to write down any questions or concerns you have about this workshop or the Blackbird-Millington Conservation Corridor planning effort, including questions, concerns, or any suggestions for future workshops/improvements.

Jen - you were so rushed, maybe those people who weren't here last time were not able to understand the purpose of the workshops. Also, Jen, don't let one guy with a loud voice sway you - you are doing a great job.

I am very concerned about the quality of the Columbia aquifer which is beneath Delaware - Maryland area -- and how we are monitoring this as it affects our lives both environmentally and healthwise (Especially Ken and northern Queen Anne's county.)

| • Other: <i>Great Experience ! Need more meetings!</i> | 1 | 2 | 3 | 4 | 5 |

Which of these topics would you like more information about in the future?

- Project progress / updates **13**
- Information on habitat, species, and natural communities **9**
- Group discussion of issues, choices, and strategies regarding conservation efforts **12**
- Other: *What programs are available for small landowners with open space -- I farm straw/hay but only on 5 acres; Integrated conservation practices, wildlife, plant life, etc.*

The next round of community workshops will be convened in the fall. Until then, there are other alternative for ways to keep you informed and involved in this effort over the spring/summer. **Please check the one(s) that you prefer:**

- Mailed information **14**
- Field trips **10** (*8 said yes to field trips on sign-in sheet*)
- Focus groups (meetings of smaller groups with more discussion) **7** (*6 said yes to focus groups on sign-in sheet*)
- Mini-presentations/workshops **11**
- Other: *What do people want to do? Perhaps there are folks unaware that they can donate (with tax write-off) and/or put lands in permanent preservation; anything to preserve our area*

*Please use the **back of this page** to write down any questions or concerns you have about this workshop or the Blackbird-Millington Conservation Corridor planning effort, including questions, concerns, or any suggestions for future workshops/improvements.*

We are very interested in maintaining the environmental integrity and diversity of this area.

Inventory of area: what are the important priority regions recognized by property owners or Delaware Nature Conservancy?
