

# Cape Henlopen State Park Campground Renovations

## Open House – March 21, 2016 *Comment Form*

The campground at Cape Henlopen State Park is undergoing improvements. In 2015, two bathhouse facilities were installed. This year, six new camping cabins, are under construction. The existing cabins combined with the new structures, creates a “cabin village”. Cabins are expected to be available for occupancy in May 2016.

Later this year, the campground will close to allow for comprehensive renovations. In this phase improvements include the following: reduce the amount of asphalt in the campground to enlarge campsites ; install additional vegetation; create back-in, pull-through and pop-up RV sites; install electric service; improve circulation; and create a camp store with laundry facilities and utility sinks. A new pathway will link bathhouses within the campground. These renovations and additions are expected to be completed in May 2017.

Please take a few minutes to provide us with information and comments by completing this form or an electronic form that is online at [Cape Henlopen Campground Survey](#).

All exhibits for the campground are available at the following website:
