

DNREC Sediment & Stormwater Listserve Update: July 2008

This months topics:

1. Upcoming Blue Card Courses (Contractor's Certification): August 20 and October 8, 2008
2. Test Now Required for Blue Card Courses
3. Next CCR Recertification Course: November 13, 2008
4. Ortho/elevation/LULC Data Update

1. Upcoming Blue Card Courses (Contractor's Certification): August 20 and October 8, 2008

Upcoming Blue Card Courses (Contractor's Certification) are scheduled for August 20 and October 8, 2008. The Contractor's Training course is a ½-day course that gives an overview of the Sediment and Stormwater Program, its regulations, and required erosion and sediment control measures in the State of Delaware. Please contact Joanne Gedney by e-mail at Joanne.Gedney@state.de.us or by phone at 302-739-9921 for registration information. The course fee is \$60, which includes continental breakfast and a course book.

2. Test Now Required for Blue Card Courses

Starting June 11, 2008, the Sediment and Stormwater Program is now administering a test at the end of all Blue Card Courses.

3. Next CCR Recertification Course: November 13, 2008

The Certified Construction Reviewer certification is only valid for five years; therefore, CCR recertification is offered to those wishing to continue certification. The next one-day refresher will be held Thursday, November 13, 2008. The course fee is \$90, which includes continental breakfast and lunch. Please contact Joanne Gedney by e-mail at Joanne.Gedney@state.de.us or by phone at 302-739-9921 for registration information.

4. Ortho/elevation/LULC Data Update

Aerial photography, elevation data, impervious surface data, and land use/land cover data were collected in a 2007 project funded jointly by the state, the counties, the city of Dover and the federal government. For further information, contact Mike Mahaffie, at 302-739-3090 or mike.mahaffie@state.de.us. For more information on the use and sharing of GIS data in Delaware, please visit <http://stateplanning.delaware.gov/dgdc/> where you will find an RSS feed dedicated to information about GIS and geospatial data. Please see

<http://stateplanning.delaware.gov/services/listservs.shtml> to become part of the GIS list serve.

Orthophotography - The data are served as an ArcIMS image service on the Delaware DataMIL at datamil.delaware.gov.

Land Use/Land Cover - A 2007 update of the 2002 Land Use/Land Cover data set is complete and available as a ZIPPED statewide shapefile data set at stateplanning.delaware.gov/info/lulcdata/2007_lulc.shtml and as an ArcIMS feature service on the Delaware DataMIL.

Impervious Surface Data - The data are available in four separate GRID data files, one each for Kent and New Castle Counties and two for Sussex County (east and west) at stateplanning.delaware.gov/info/impervious/2007_impervious.shtml.

Elevation Data (Partly Complete) – New LiDAR data includes elevations for Kent and New Castle counties only. “Raw” LiDAR point data for Kent and New Castle Counties is now available in LAS and shapefile format. For more information, contact Mike Mahaffie, at 302-739-3090.
