

DNREC Sediment & Stormwater Listserve Update: October 16, 2015

This month's topics:

1. DNREC Adopts Interim Emergency Sediment and Stormwater Regulations

1. DNREC Adopts Interim Emergency Sediment and Stormwater Regulations

The Department of Natural Resources and Environmental Control has adopted interim emergency sediment and stormwater management regulations – in effect reinstating the 2014 regulations invalidated by a recent Superior Court decision, and for the first time adopting supporting technical materials as regulations, consistent with the Court's ruling. The Sediment & Stormwater Program has set up a new Web page with links to the Secretary's Emergency Regulation Order, full version of the press release, a copy of the emergency regulations, and the new October 2015 Technical Document to be published in the November Register of Regulations. The Web page can be accessed from the following link:
