

*9/20/17 DNREC proposal for revised 5101 regulatory language*

~~5.1.5 All applications that propose to use infiltration or natural recharge shall include a soils investigation to determine the appropriate design criteria.~~

5.1.5 Post construction stormwater management BMPs

5.1.5.1 Post construction stormwater management BMPs shall be designed and constructed in accordance with all applicable subsections of Section 11.0 Post Construction BMP Standards and Specifications.

5.1.5.2 A single BMP may require compliance with more than one subsection of Section 11.0 Post Construction BMP Standards and Specifications based upon its function and design.

5.1.5.3 In addition to the requirements of Section 11.0 of these regulations, all post construction stormwater management BMPs shall meet the requirements of Section 12.0 Supplemental Requirements for Best Management Practices as applicable.

5.1.5.4 All applicable federal, state and local laws, rules, regulations or permit requirements shall be followed in the design and construction of post construction stormwater management BMPs.
