

DNREC/DIVISION OF WATERSHED STEWARDSHIP PUBLIC NOTICE

The Department of Natural Resources and Environmental Control (DNREC) Division of Watershed Stewardship has revised and amended the following articles in the Sediment and Stormwater Technical Document:

- 2.05 Regulatory Interpretation and Variances (revised - strikethrough)
- 2.05.1 Sediment and Stormwater Variance Request (revised form - strikethrough)
- 2.05.2 Sediment and Stormwater Variance Request – Expired Plans (revised form - strikethrough)
- 3.02 Plan Review Process – Detailed Plans (strikethrough)
- 3.02.0.1 Application for Sediment and Stormwater Management Plan Approval (new form)
- 3.04 Post Construction Stormwater Management (strikethrough)
- 3.04.1 RPv, Cv, and Fv Compliance Check Flowcharts (revised)
- 3.06.2.A-1 Soil Investigation Procedures (strikethrough)

Sediment and Stormwater Technical Document revisions may be reviewed online at the following website: <http://www.dnrec.delaware.gov/swc/Drainage/Pages/Technical-Document-Updates.aspx>. Revisions may also be reviewed at the following location:

Department of Natural Resources and Environmental Control
89 Kings Highway
Dover, DE 19901

For additional information or any appointments to review the revisions to the Technical Document at DNREC, please contact Elaine Webb, DNREC Sediment and Stormwater Program, 89 Kings Highway, Dover, DE 19901, (302) 739-9921, elaine.webb@state.de.us.

The Division of Watershed Stewardship's Sediment and Stormwater Management Program employs a comprehensive approach to sediment control and stormwater management statewide through implementation of the *Delaware Sediment and Stormwater Regulations*, construction and post-construction inspection, monitoring, and education and training.

A public hearing will NOT be held unless the Secretary receives a meritorious request for a hearing within 15 days of date of this notice, ending February 19, 2015. A request for a public hearing shall be in writing and show familiarity with the proposed Technical Document revisions and a reasoned statement of the changes' probable impact.
