

Dear AST Tank Owner/Operator:

The Delaware *Regulations Governing Aboveground Storage Tanks* (AST Regulations) were originally promulgated on June 11, 2004 and revised February 11, 2005. The Delaware Department of Natural Resources and Environmental Control, Tank Management Section (DNREC-TMS) is currently making revisions to the AST Regulations to clarify areas of the AST Regulations that are not specific in nature, updates to technical sections to remain current with technology, and inclusion of new industry standards. The proposed revisions will add clarity and will ensure the requirements in the AST Regulations are up to date and in line with current industry practices and standards.

The draft Regulations and a complete listing of all proposed changes may be accessed at <http://www.dnrec.delaware.gov/tanks/Pages/AST-Program.aspx>
(copy and paste into browser)

The DNREC-TMS has scheduled three workshops to allow the public to ask questions and make comments regarding the draft AST Regulations. These are informal workshops, not official public hearings. The DNREC-TMS will make a short presentation highlighting the proposed changes and will be available to answer questions. An official public hearing will be scheduled after the DNREC-TMS has reviewed all public comments received at the workshops and made any necessary changes to the draft AST Regulations.

If you cannot attend the public workshops, but would like to make comments on the draft AST Regulations, please email comments to jill.hall@state.de.us or mail to Jill Hall, DNREC-TMS, 391 Lukens Drive, New Castle, DE 19720.

PUBLIC WORKSHOPS

DATE	TIME	PLACE
March 10, 2015	10:00am – 12:00pm	DNREC New Castle Office 391 Lukens Drive New Castle, DE 19720
March 12, 2015	6:00pm – 8:00pm	DNREC Dover Office 89 Kings Highway Dover, DE 19901
March 17, 2015	10:00am -12:00pm	DNREC Lewes Office 901 Pilot Town Road Lewes, DE 19958

If you have any questions regarding the draft AST Regulations, please contact Jill Williams-Hall or Barbara Fawcett-Kirkland at 302-395-2500.

Sincerely,

Alex Rittberg,
Program Administrator, Tank Management Section
