Dear Mr. McCloskey:

This letter is to inform you that during the transition of the Wastewater Manager position from Mike Hall to myself the new requirement of Total Nitrogen analysis on the 001 effluent was never conveyed to our contract laboratory EnviroCorps. This came to my attention today as I was reviewing the new DMR report that you sent to me by FAX. I have informed EnviroCorps of the new requirement today and they will begin the analysis effective immediately. I will be sending a copy of the new permit to EnviroCorps for their records.

If you should have any questions, please contact me at (302) 684-1640, Ext. 184.

Sincerely,

Michael R. Sause
Wastewater Manager
