RE: Nutrient Offset Plan Report: Revised

Dear Mr. Davis

This letter serves as the twenty-second installment of the Pinnacle Foods Group LLC Nutrient Offset Plan Report. As required by Special Condition #7 of Pinnacle's NPDES Permit DE 0000736, "The permittee shall submit progress reports every six months outlining actions taken toward implementing this plan".

The yearly fertilizer application was applied on March 15th, 2012; this year we also added 1 ton/acre of high calcium lime per U of D soil analysis recommendations. The field was cut and baled May 25th – 29th; a total of 50 bales were gathered.

Spray Irrigation on the site began on July 6, 2011 and a total of 1,733,457 gallons were sprayed between the 6th and the 16th.

Should you have any questions please call me at 302-934-3833.

Sincerely,

A handwritten signature in black ink that reads 'Robert E. Lynch'.

Robert E. Lynch
Environmental/Wastewater Supervisor
