RE: Approval of Infiltrator IM-1530 multi-compartment septic tank

Dear Mr. Bachelder,

The Division of Water Resources has received and reviewed your request to approve Infiltrator System's new Model IM-1530, polyolefin thermoplastic septic tank. We are pleased to inform you that we are able to **approve** the septic tank referenced above, provided that they are installed in accordance with the manufacturer's installation instructions and specific permit conditions.

Additionally, as a condition of this approval, Infiltrator Systems, Inc. will be required to supply the Department with a list of authorized assemblers and assembly locations for the IM-1530 tank, as well as written Quality Assurance/Quality Control protocol and inspection procedures (IAPMO/CSA) for the authorized assemblers and certified assembly locations. At no time will the Model IM-1530 be permitted to be assembled on construction sites or by anyone other than an authorized assembler.

If you have any other questions please contact me at 856-4561.

Sincerely,

A handwritten signature in blue ink that reads "James Cassidy".
