SUBJECT: ALLEN HARIM - HARBESON DE - WWTS UPGRADE AND EXPANSION PERMIT REVIEW - PHASE 2

Ms. Mackil:

Reid Engineering Company (REC) has prepared the attached plans and specifications titled Allen Harim Foods, LLC. - Harbeson DE - Wastewater Treatment System Upgrade and Expansion - Phase Two. Attached for your review please find one (1) set of full size drawings, one (1) hard copy of the Specifications, one (1) hard copy of the Final Design Summary, one (1) CD) containing PDF files of these documents and one (1) permit application. The Allen Harim wastewater treatment system upgrade is being performed in two phases. The first phase will address the immediate need to increase the hydraulic and treatment capacity of the existing wastewater treatment system. This second phase will address BNR upgrade required to comply with the anticipated NPDES permit discharge limits. The narrative provided within the permit application lists which components will be included in each phase of the upgrade. Please note that the submitted plans, specifications, Final Design Summary and permit application are only for Phase Two of the upgrade.

Upon your review should you have any questions or comments please do not hesitate to contact me at 540-371-8500.

Respectfully,

Adam E. Zimmerman, P.E.
Project Manager
