## **LEGAL NOTICE**

### **DNREC – Division of Water, Surface Water Discharges Section**

#### **Wastewater Facilities Construction Permit Application**

The Delaware Department of Natural Resources and Environmental Control, Division of Water, hereby gives notice that a permit application has been received from:

Artesian Water Company proposes to construct approximately eleven thousand seven hundred and thirty-five linear feet (11,735 LF) of twelve (12) inch diameter force main from their existing twelve (12) inch diameter force main at the intersection of the Lewes-Georgetown Highway (Rt. 9) and Gravel Hill Road (Rt. 30), continuing west on Rt. 9 to the Steiner Road intersection, continuing south on Steiner Road approximately one thousand five hundred (1,500) feet to the railroad tracks, and then continuing approximately three thousand five hundred (3,500) feet along the railroad tracks to the Park Avenue intersection in Sussex County. The purpose of this force main extension is to allow a future twelve (12) inch diameter Sussex County force to interconnect with the proposed Artesian force main on Park Avenue. This interconnection will allow Sussex County to utilize the Artesian Beaver Creek wastewater treatment facility for some of their customers in this area.

Questions regarding the applications and plans for the above are available for inspection by contacting:

Keith Kooker, P.E.  
DNREC Environmental Finance  
Enterprise Business Park  
97 Commerce Way, Suite 106  
Dover, DE 19904  
(302) 739-9941

A public hearing concerning the above application will **NOT** be held unless the Secretary of DNREC determines that a hearing is in the public interest or if a written meritorious request for a hearing is received on or before February 23, 2020. A request for a public hearing shall be deemed meritorious if it exhibits a familiarity with the application and provides a reasoned statement of the permit's probable impact..
