Organization:

Comments:

I am a part time resident of Ocean City MD and I reside in The Capri Me and my parents go to Harris Teeter in Fenwick Island because we like the variety of food they have This plastic bag ban is not necessary and for me being in NY full time this is already hard enough I was not able to go into Delaware this year because of the Pandemic Now as I try to return to the first state I will not be able to get a plastic bag while shopping Please reconsider this ban because a lot of low income and disabled peoples life's will be made difficult
